## RUSSIAN CITIES QUIET

NO SERIOUS COLLISIONS ARE REPORTED IN ANY OF THE INDUSTRIAL CENTERS.

### TROOPS CONTROL SITUATION

STRIKERS AT ST. PETERSBURG RETURN TO WORK AT SEVERAL FACTORIES.

With troops patrolling the streets in St. Petersburg, Moscow, Libau, Odessa, Kieff and other industrial centers of Russia, there were no serious collisions Thursday with strikers. In Moscow some of the employers are evincing a willingness to make some concessions to their workmen, but there has been no general agreement on that point. In St. Petersburg the return of workmen has enabled several factories to resume operations and the authorities hope to witness a general resumption there on Monday. The minister of the interior has promised to consider the cases of the prominent writers who were sent to the St. Peter and St. Paul fortress for their activity in the political and economic agitation and he has given a qualified promise that they shall be released.

### THIRTY SHOT DOWN

STRIKERS KILLED OR WOUNDED IN CLASH WITH TROOPS AND POLICE.

London, Jan. 27.—A dispatch to Reuter's Telegram company from Riga confirms the previous announcement of a collision there between strikers and troops. Thirty workmen were killed or wounded and a substitute chief of police and two soldiers were mortally wounded. The encounter occurred near the Tukdum railroad station. The strikers attacked the troops and attempted to disarm them, when the order was given to fire. All the workshops and factories are closed. The strikers are parading the streets and forcing all workmen to join in the procession.

### SITUATION NOWHERE ACUTE.

No General Disorders Reported in Russian Cities.

St. Petersburg, Jan. 27.—Although the strikes in Reval, Libau, Kieff, Odessa and a few smaller places are extending, the situation is nowhere acute. An increasing number of workmen are out in Moscow, but there is no general tie up or disorder there. The whereabouts of Father Gopon still remains a mystery, although it is believed the priest is in Moscow.

The Russian capital presents almost a normal appearance and the authorities are now confident that the backbone of the strike has been broken. Some factories and mills already have resumed, and a general resumption of operations is expected on Monday. The authorities expect that the failure of the strike here will have a discouraging effect upon the workmen in other cities to which the troubles have been spreading and believe that there is no longer danger of a complete suspension of all the industrial concerns of Russia.

Minister of the Interior Sviatopolk-Mirsky has promised the delegation of editors who called upon him that he will investigate the arrest of a number of prominent writers who are now confined in the St. Peter and St. Paul fortresses and secure their release as soon as possible.

### COMPLETE QUIET AT MOSCOW.

Strikers Generally Refrain From Congregating on Streets.

Moscow, Jan. 27.—The day passed with complete quiet, the strikers generally remaining quietly indoors and not visiting the heart of the city. The Tverskaja and other principal thoroughfares have resumed their normal appearance. Several mills are reported to have offered an increase of wages to their employees.

The Associated Press correspondent visited the industrial district and found that no factories were in operation in the whole region south of the river with the exception of one large establishment which was amply guarded in order to prevent possible intimidation of workmen, but there was no attempt at such intimidation.

Although the strike is steadily spreading the movement thus far has not been accompanied by collisions of great gravity. Thursday's events were restricted to minor skirmishes on the northern and eastern outskirts of the

city in which the troops successfully resisted all efforts of the crowd to break through the cordon. No bloodshed is reported. Both the authorities and the masters have shown admirable coolness in the face of the situation, the former avoiding provocation by studiously concealing the troops and the latter by displaying a readiness to meet the men's demands.

During the Associated Press correspondent's visit to the factories south of the river which employ hundreds of thousands of men he saw no more than 200 workmen in the streets and discovered that the men are all staying indoors. It appears that when the strikers made the rounds of the mills calling on their comrades to quit work under threat of wrecking the plants the masters decided to allow the men to take a holiday with full pay, provided they remain in their dwellings, and the workmen unanimously consented, the result being that the intimidators were disarmed.

In the meanwhile the workmen and masters are negotiating for a settlement of their differences.

The authorities remain confident and the police patrols have been reduced. The situation, however, is none the less uncertain, as it is still a question whether the workmen will remain quiescent if the strike becomes general.

### FANTASTIC STORIES IN LONDON.

But Trustworthy Journals Realize That the Revolt Has Failed.

London, Jan. 27.—Stories so fantastic as to be unworthy of repetition still continue to appear in the St. Petersburg dispatches of some of the London morning newspapers. All the more trustworthy journals, however, have begun to recognize that for the time being the revolt has failed.

The Daily Telegraph's dispatch from St. Petersburg says:

"Order under Cossacks reigns in St. Petersburg. The rebellious workmen have been driven back to their posts, hungry and heartless, and both sides are now busy removing the traces of their recent encounter. Summing up the results, one may say that out of a procession of peaceful workmen the government has forged a revolution which threatens to be all the more horrible that its manifestation is being suppressed."

The Daily Mail's St. Petersburg correspondent says:

"It may as well be recognized at once that, considered as a movement to accomplish a revolution or even to compel the granting of a constitution by a pacific manifestation, the agitation has completely failed. It has accomplished its educational purpose, but it will be long before that is translated into effect; and according to best information all the provincial demonstrations will have a similar result to those in the capital."

A news agency dispatch from St. Petersburg states that the fighting at Riga resulted in twenty-two being killed, including Assistant Police Commissary Bileff, and that fifty were wounded. Seven soldiers, the dispatch adds, were wounded by revolver shots.

### FATHER GOPON TO DIE

PRIEST IS WOUNDED AND WILL BE SENTENCED TO DEATH FOR INCITING RIOT.

Berlin, Jan. 27.—It is reported from St. Petersburg that Father Gopon is lying severely wounded in Alafusoff hospital, and that upon his recovery he will be tried by courtmartial and sentenced to death for inciting insurrection.

### TERRORISTS AFTER THE CZAR.

Russian Ruler Placed on List of Those to Be Killed.

St. Petersburg, Jan. 27.—The most startling and impressive development so far in the Russian situation is the announcement that the boyevaya, the executive branch of the Terrorists, has placed the czar on the list of those condemned to death. Notwithstanding contrary reports, this is the first time the present emperor of Russia has been condemned by this organization, which has the gruesome reputation of never having failed to compass the death of a man against whom its edict has been issued. Its most recent victim was Von Plehve.

### WORK OF INCENDIARIES.

Big Factory in St. Petersburg Said to Be on Fire.

London, Jan. 27.—A dispatch from St. Petersburg to a news agency reports that Pahl's factory and a large cotton mill have been set on fire and are burning fiercely.

### RESULT OF DOMESTIC TROUBLES.

Michigan Man Kills His Wife and Himself.

Battle Creek, Mich., Jan. 27.—Harry A. Knickerbocker, a painter, Thursday shot and instantly killed his wife in their home here and then killed himself. They had had domestic troubles.

## H. F. MICHAEL CO'S Daily Store News.

### White Sale Remnant Day.

A successful sale of two weeks naturally creates remnants. Desirable ones too, for the best most generally sell first. To make a sale a success many goods must be displayed and White goods soil easily.

For this remnant sale we have many short lengths and some few things that have become slightly soiled. This does not depreciate their real value for you will introduce the most of them to the tub before using.

Our spacious sales tables will be covered with remnants of

Table Linens  
White Wastings  
Curtain Swisses  
Embroideries  
Muslins  
Cambrics  
Corset Cover Embroideries  
Long Cloths  
India Linens  
Sheetings  
Val Laces  
Torchon Laces

And other white goods at a decided saving. We know you will appreciate these bargains.

### The Last Day of the White Sale

Prices advertised during the last two weeks will be obtainable tomorrow. That is, on such goods as remain, and the assortments are yet very good. Come in Saturday and complete your "White" purchases for your spring sewing while our prices are obtainable.

## IMPORTANT MEASURE

FINALLY AGREED UPON BY PRESIDENT ROOSEVELT AND HIS ADVISERS.

### AFFECTS LABOR INJUNCTIONS

PARTY TO BE ADVERSELY AFFECTED MAY FIRST APPEAR IN COURT.

Washington, Jan. 27.—An important measure which is the result of two-months conferences between President Roosevelt, Attorney General Moody, Commissioner of Corporations Garfield and representatives of labor organizations and corporate interests has been introduced in the house by Representative Jenkins of Wisconsin, chairman of the judiciary committee.

It provides that in labor disputes an injunction shall not be issued until opportunity shall have been afforded the adverse party to the proceedings to be heard by the court and is intended as a substitute for measures pending in congress. It was introduced with the idea of furnishing to congress a basis of legislative action that was satisfactory to the interests of both labor and capital. Commissioner Garfield thus explained the bill:

"The original statute of 1793 provided that a hearing should be had before the issuance of any extraordinary writ. Equity rule 55 simply carried that provision into effect in all injunction proceedings. Under the revision of the revised statutes in 1872, the old law was so changed as, in effect, to repeal that part of equity rule No. 85 requiring the giving of notice before granting the temporary restraining order. This bill restores that provision of the rule. Its effect will be not to limit the right of injunction, but it will prevent the improvident granting of writs of injunction by affording the adverse party an opportunity to be heard before action is taken by the court."

### ELECTIONS IN HUNGARY.

Will Probably Result in Downfall of Premier Tisza.

Budapest, Hungary, Jan. 27.—The elections are proceeding throughout the country with the aid of troops to preserve order. No serious disorders have yet been reported, but some rioting has occurred in several provincial towns, and in the Sixth district of Budapest, where Socialists attacked Minister Plehmis' supporters and the military were obliged to interfere. The results reported are too fragmentary to afford a prediction with accuracy, but there are some indications that Premier Tisza will fall to command a majority in the new chamber of deputies sufficiently large to justify his retention of the reins of government.

### ENORMOUS WAR PREPARATIONS.

Japan Planning to Carry on Operations on Large Scale.

London, Jan. 27.—The Daily Telegraph's Tokyo correspondent says that Japan is making enormous war preparations. Besides immediately laying down a battleship of 19,000 tons at Yokosuka, and the contemplated building in Japan of a 12,000-ton cruiser, large additions to her torpedo and submarine flotillas and two cruisers have already been started building at Kure. All future ships will be heavily armed, but guns below the 10-inch caliber will be discarded.

"The Fifth army is being organized under command of Lieutenant General Kawamura," the correspondent says, "who is calling out more reservists. Conscripts are expected. All men under forty years of age are being drilled."

"The blockading of Vladivostok is imminent. A fleet of cruisers is leaving for the south and Admirals Togo and Kamimura will follow with battleships. Three cruisers and several torpedo boat destroyers are in the neighborhood of Borneo. A division of troops has been landed in Formosa. "It is now evident that the cruiser Takasago was lost. The names of her crew from the commander down are now officially published as killed."

"Negotiations continue for the purchase of a Chilean cruiser. Fifteen new submarine boats will be provided this year. Ten recently arrived under control of American instructors."

### TROOPS RELUCTANT TO FIGHT.

Kuropatkin's European Soldiers See No Object in Continuing War.

London, Jan. 27.—The Daily Telegraph's St. Petersburg correspondent asserts that General Kuropatkin has telegraphed to the emperor that his offensive power is seriously hampered by the obstinate reluctance of his troops from the European provinces to advance against the enemy. Whilst the Cossacks and Siberians are full of dash, the Europeans argue that now that Port Arthur has surrendered there is no object in continuing the war.

### FOUR MINERS KILLED.

All of Them Met Death From Dynamite Explosions.

Calumet, Mich., Jan. 27.—Blasting caused almost instant death to four Finnish miners in local mines Thursday. Henry Aho and John Reini were killed at the Tamarack mine. A charge of dynamite exploded while they were recharging the hole. John and Jacob Kostunen, brothers, died as the result of a premature explosion of a charge in the Champion mine.

### MAY SETTLE COAL STRIKE.

German Operators Agree to Accept Verdict of Commission.

Essen, Prussia, Jan. 27.—The coal mine owners have reached a decision that probably will result in a settlement of the strike. They determined to inform the government that they would accept any judgment a parliamentary commission might render after an inquiry into the grievances of the miners and that the owners immediately remove the grievances.

### ARMY BILL IS AMENDED.

General Miles Not Affected by Retired Officer Provision.

Washington, Jan. 27.—The senate Thursday passed the army appropriation bill after modifying the provision concerning the assignment of retired army officers to active service with the militia organizations. The effect of the change is to relieve General Miles from its application.

Mr. Gallinger and others criticised the amendment regulating the sale of army transports, claiming that the use of government vessels forced unfair competition upon the owners of private vessels. Mr. Hale condemned the operation of the general tariff system in the army and said he would oppose any effort to establish a similar system in the navy.

### THE AGRICULTURAL BILL.

The Principal Topic of Debate in the House.

Washington, Jan. 27.—The agricultural bill was considered in the house Thursday but the debate turned principally on the topic of restricting railroads in the matter of freight rates, the Hepburn bill forming the basis of the discussion. Mr. Williams of Mississippi said that the Democratic party was committed to views such as were expressed by the president in his message to congress.

Consideration of the agricultural bill had not been concluded when the house adjourned.

### FIGHTING IN SEVERE COLD.

Heaviest Engagement for Months Occurs in Manchuria.

General Kuropatkin's Headquarters, Jan. 27.—A heavy and continuous artillery firing has been heard to the westward all of Thursday. Apparently the largest engagements since October is being fought. Reports received here are to the effect that a Russian force has crossed the Hun river on the Japanese left wing. A Japanese force advanced against the Russians, making an attack.

The fighting must be attended with great suffering from the cold. A snow storm began Monday, following a long period of remarkable mildness. The temperature is below zero and the plains are covered with several inches of snow. The ground is too hard for rapid trenching. Thursday's move by the Russians is the first important one since General Mischenko's recent raid.

### Horses for the Japanese.

Lead, S. D., Jan. 27.—About 4,000 head of horses have been contracted by an agent who is said to be acting for the Japanese government. The first consignment has left Moorcroft, Wyo., where the agent has headquarters.

### POLICE SEARCHING FOR HOCK.

Informed That He Was in Chicago Within Past Three Days.

Chicago, Jan. 27.—The police have information that Hock was in Chicago within the past three days, and they have redoubled their efforts to come up with him. A large number of officers are searching for him.

## RUSSIAN CITIES QUIET

NO SERIOUS COLLISIONS ARE REPORTED IN ANY OF THE INDUSTRIAL CENTERS.

### TROOPS CONTROL SITUATION

### STRIKERS AT ST. PETERSBURG RETURN TO WORK AT SEVERAL FACTORIES.

With troops patrolling the streets in St. Petersburg, Moscow, Libau, Odessa, Kieff and other industrial centers of Russia, there were no serious collisions Thursday with strikers. In Moscow some of the employers are evincing a willingness to make some concessions to their workmen, but there has been no general agreement on that point. In St. Petersburg the return of workmen has enabled several factories to resume operations and the authorities hope to witness a general resumption there on Monday. The minister of the interior has promised to consider the cases of the prominent writers who were sent to the St. Peter and St. Paul fortress for their activity in the political and economic agitation and he has given a qualified promise that they shall be released.

### THIRTY SHOT DOWN

### STRIKERS KILLED OR WOUNDED IN CLASH WITH TROOPS AND POLICE.

London, Jan. 27.—A dispatch to Reuter's Telegram company from Riga confirms the previous announcement of a collision there between strikers and troops. Thirty workmen were killed or wounded and a substitute chief of police and two soldiers were mortally wounded.

The encounter occurred near the Tukkdum railroad station. The strikers attacked the troops and attempted to disarm them, when the order was given to fire.

All the workshops and factories are closed. The strikers are parading the streets and forcing all workmen to join in the procession.

### SITUATION NOWHERE ACUTE.

No General Disorders Reported in Russian Cities.

St. Petersburg, Jan. 27.—Although the strikes in Reval, Libau, Kieff, Odessa and a few smaller places are extending, the situation is nowhere acute. An increasing number of workmen are out in Moscow, but there is no general tie up or disorder there. The whereabouts of Father Gopon still remains a mystery, although it is believed the priest is in Moscow.

The Russian capital presents almost a normal appearance and the authorities are now confident that the backbone of the strike has been broken. Some factories and mills already have resumed, and a general resumption of operations is expected on Monday. The authorities expect that the failure of the strike here will have a discouraging effect upon the workmen in other cities to which the troubles have been spreading and believe that there is no longer danger of a complete suspension of all the industrial concerns of Russia.

Minister of the Interior Sviatopolk-Mirsky has promised the delegation of editors who called upon him that he will investigate the arrest of a number of prominent writers who are now confined in the St. Peter and St. Paul fortresses and secure their release as soon as possible.

### COMPLETE QUIET AT MOSCOW.

Strikers Generally Refrain From Congregating on Streets.

Moscow, Jan. 27.—The day passed with complete quiet, the strikers generally remaining quietly indoors and not visiting the heart of the city. The Tverskaja and other principal thoroughfares have resumed their normal appearance. Several mills are reported to have offered an increase of wages to their employees.

The Associated Press correspondent visited the industrial district and found that no factories were in operation in the whole region south of the river with the exception of one large establishment which was amply guarded in order to prevent possible intimidation of workmen, but there was no attempt at such intimidation.

Although the strike is steadily spreading the movement thus far has not been accompanied by collisions of great gravity. Thursday's events were restricted to minor skirmishes on the northern and eastern outskirts of the

city in which the troops successfully resisted all efforts of the crowd to break through the cordon. No bloodshed is reported. Both the authorities and the masters have shown admirable coolness in the face of the situation, the former avoiding provocation by studiously concealing the troops and the latter by displaying a readiness to meet the men's demands.

During the Associated Press correspondent's visit to the factories south of the river which employ hundreds of thousands of men he saw no more than 200 workmen in the streets and discovered that the men are all staying indoors. It appears that when the strikers made the rounds of the mills calling on their comrades to quit work under threat of wrecking the plants the masters decided to allow the men to take a holiday with full pay, provided they remain in their dwellings, and the workmen unanimously consented, the result being that the intimidators were disarmed.

In the meanwhile the workmen and masters are negotiating for a settlement of their differences.

The authorities remain confident and the police patrols have been reduced. The situation, however, is none the less uncertain, as it is still a question whether the workmen will remain quiescent if the strike becomes general.

### FANTASTIC STORIES IN LONDON.

But Trustworthy Journals Realize That the Revolt Has Failed.

London, Jan. 27.—Stories so fantastic as to be unworthy of repetition still continue to appear in the St. Petersburg dispatches of some of the London morning newspapers. All the more trustworthy journals, however, have begun to recognize that for the time being the revolt has failed.

The Daily Telegraph's dispatch from St. Petersburg says:

"Order under Cossacks reigns in St. Petersburg. The rebellious workmen have been driven back to their posts, hungry and heartless, and both sides are now busy removing the traces of their recent encounter. Summing up the results, one may say that out of a procession of peaceful workmen the government has forged a revolution which threatens to be all the more horrible that its manifestation is being suppressed."

The Daily Mail's St. Petersburg correspondent says:

"It may as well be recognized at once that, considered as a movement to accomplish a revolution or even to compel the granting of a constitution by a pacific manifestation, the agitation has completely failed. It has accomplished its educational purpose, but it will be long before that is translated into effect; and according to best information all the provincial demonstrations will have a similar result to those in the capital."

A news agency dispatch from St. Petersburg states that the fighting at Riga resulted in twenty-two being killed, including Assistant Police Commissary Bileff, and that fifty were wounded. Seven soldiers, the dispatch adds, were wounded by revolver shots.

### FATHER GOPON TO DIE

### PRIEST IS WOUNDED AND WILL BE SENTENCED TO DEATH FOR INCITING RIOT.

Berlin, Jan. 27.—It is reported from St. Petersburg that Father Gopon is lying severely wounded in Alafusoff hospital, and that upon his recovery he will be tried by courtmartial and sentenced to death for inciting insurrection.

### TERRORISTS AFTER THE CZAR.

Russian Ruler Placed on List of Those to Be Killed.

St. Petersburg, Jan. 27.—The most startling and impressive development so far in the Russian situation is the announcement that the boyevaya, the executive branch of the Terrorists, has placed the czar on the list of those condemned to death. Notwithstanding contrary reports, this is the first time the present emperor of Russia has been condemned by this organization, which has the grewsome reputation of never having failed to compass the death of a man against whom its edict has been issued. Its most recent victim was Von Plehve.

### WORK OF INCENDIARIES.

Big Factory in St. Petersburg Said to Be on Fire.

London, Jan. 27.—A dispatch from St. Petersburg to a news agency reports that Pahl's factory and a large cotton mill have been set on fire and are burning fiercely.

## IMPORTANT MEASURE

### FINALLY AGREED UPON BY PRESIDENT ROOSEVELT AND HIS ADVISERS.

### AFFECTS LABOR INJUNCTIONS

### PARTY TO BE ADVERSELY AFFECTED MAY FIRST APPEAR IN COURT.

Washington, Jan. 27.—An important measure which is the result of two-months conferences between President Roosevelt, Attorney General Moody, Commissioner of Corporations Garfield and representatives of labor organizations and corporate interests has been introduced in the house by Representative Jenkins of Wisconsin, chairman of the judiciary committee. It provides that in labor disputes an injunction shall not be issued until opportunity shall have been afforded the adverse party to the proceedings to be heard by the court and is intended as a substitute for measures pending in congress. It was introduced with the idea of furnishing to congress a basis of legislative action that was satisfactory to the interests of both labor and capital. Commissioner Garfield thus explained the bill:

"The original statute of 1793 provided that a hearing should be had before the issuance of any extraordinary writ. Equity rule 55 simply carried that provision into effect in all injunction proceedings. Under the revision of the revised statutes in 1872, the old law was so changed as, in effect, to repeal that part of equity rule No. 85 requiring the giving of notice before granting the temporary restraining order. This bill restores that provision of the rule. Its effect will be not to limit the right of injunction, but it will prevent the improvident granting of writs of injunction by affording the adverse party an opportunity to be heard before action is taken by the court."

### ELECTIONS IN HUNGARY.

Will Probably Result in Downfall of Premier Tisza.

Budapest, Hungary, Jan. 27.—The elections are proceeding throughout the country with the aid of troops to preserve order. No serious disorders have yet been reported, but some rioting has occurred in several provincial towns, and in the Sixth district of Budapest, where Socialists attacked Minister Piebimis' supporters and the military were obliged to interfere. The results reported are too fragmentary to afford a prediction with accuracy, but there are some indications that Premier Tisza will fail to command a majority in the new chamber of deputies sufficiently large to justify his retention of the reins of government.

### ENORMOUS WAR PREPARATIONS.

Japan Planning to Carry on Operations on Large Scale.

London, Jan. 27.—The Daily Telegraph's Tokio correspondent says that Japan is making enormous war preparations. Besides immediately laying down a battleship of 19,000 tons at Yokosuka, and the contemplated building in Japan of a 12,000-ton cruiser, large additions to her torpedo and submarine flotillas and two cruisers have already been started building at Kure. All future ships will be heavily armed, but guns below the 10-inch caliber will be discarded.

"The Fifth army is being organized under command of Lieutenant General Kawamura," the correspondent says, "who is calling out more reservists. Conscripts are expected. All men under forty years of age are being drilled. The blockading of Vladivostok is imminent. A fleet of cruisers is leaving for the south and Admirals Togo and Kamimura will follow with battleships. Three cruisers and several torpedo boat destroyers are in the neighborhood of Borneo. A division of troops has been landed in Formosa. It is now evident that the cruiser Takasago was lost. The names of her crew from the commander down are now officially published as killed. "Negotiations continue for the purchase of a Chilean cruiser. Fifteen new submarine boats will be provided this year. Ten recently arrived under control of American instructors."

TROOPS RELUCTANT TO FIGHT.

Kuropatkin's European Soldiers See No Object in Continuing War.

London, Jan. 27.—The Daily Telegraph's St. Petersburg correspondent asserts that General Kuropatkin has telegraphed to the emperor that his offensive power is seriously hampered by the obstinate reluctance of his troops from the European provinces to advance against the enemy. Whilst the Cossacks and Siberians are full of dash, the Europeans argue that now that Port Arthur has surrendered there is no object in continuing the war.

### FOUR MINERS KILLED.

All of Them Met Death From Dynamite Explosions.

Calumet, Mich., Jan. 27.—Blasting caused almost instant death to four Finnish miners in local mines Thursday. Henry Aho and John Reini were killed at the Tamarack mine. A charge of dynamite exploded while they were recharging the hole. John and Jacob Kostunen, brothers, died as the result of a premature explosion of a charge in the Champion mine.

### MAY SETTLE COAL STRIKE.

German Operators Agree to Accept Verdict of Commission.

Essen, Prussia, Jan. 27.—The coal mine owners have reached a decision that probably will result in a settlement of the strike. They determined to inform the government that they would accept any judgment a parliamentary commission might render after an inquiry into the grievances of the miners and that the owners immediately remove the grievances.

### ARMY BILL IS AMENDED.

General Miles Not Affected by Retired Officer Provision.

Washington, Jan. 27.—The senate Thursday passed the army appropriation bill after modifying the provision concerning the assignment of retired army officers to active service with the militia organizations. The effect of the change is to relieve General Miles from its application.

Mr. Gallinger and others criticised the amendment regulating the sale of army transports, claiming that the use of government vessels forced unfair competition upon the owners of private vessels. Mr. Hale condemned the operation of the general tariff system in the army and said he would oppose any effort to establish a similar system in the navy.

### THE AGRICULTURAL BILL.

The Principal Topic of Debate in the House.

Washington, Jan. 27.—The agricultural bill was considered in the house Thursday but the debate turned principally on the topic of restricting railroads in the matter of freight rates, the Hepburn bill forming the basis of the discussion. Mr. Williams of Mississippi said that the Democratic party was committed to views such as were expressed by the president in his message to congress.

Consideration of the agricultural bill had not been concluded when the house adjourned.

### FIGHTING IN SEVERE COLD.

Heaviest Engagement for Months Occurs in Manchuria.

General Kuroki's Headquarters, Jan. 27.—A heavy and continuous artillery firing has been heard to the westward all of Thursday. Apparently the largest engagements since October is being fought. Reports received here are to the effect that a Russian force has crossed the Hun river on the Japanese left wing. A Japanese force advanced against the Russians, making an attack.

The fighting must be attended with great suffering from the cold. A snow storm began Monday, following a long period of remarkable mildness. The temperature is below zero and the plains are covered with several inches of snow. The ground is too hard for rapid trenching. Thursday's move by the Russians is the first important one since General Mischenko's recent raid.

### Horses for the Japanese.

Lead, S. D., Jan. 27.—About 4,000 head of horses have been contracted by an agent who is said to be acting for the Japanese government. The first consignment has left Moorcroft, Wyo., where the agent has headquarters.

### POLICE SEARCHING FOR HOCK.

Inferred That He Was in Chicago Within Past Three Days.

Chicago, Jan. 27.—The police have information that Hock was in Chicago within the past three days, and they have redoubled their efforts to come up with him. A large number of officers are searching for him.

# BRAINERD DAILY DISPATCH.

VOLUME 4, NO. 201.

BRAINERD, MINN., FRIDAY, JANUARY 27, 1905.

PRICE TWO CENTS

## GROCERIES

AT WHOLESALE

UNTIL

Feb. 1, '05.

At that time we will invoice and want to reduce our stock.

25c pkg. Rolled Oats, now	18c
10 lb. Rolled Oats (bulk) now	25c
7 pk'g's Uneeda Biscuit for	25c
30c Brooms, for	18c
25 lbs. Good Prunes for	87c
4 lbs. 10c Dry Apples for	25c
4 lbs. Cooking Figs for	25c
\$1.25 Maple Syrup per gal.	80c
25c pail Syrup half gal.	19c
25c Jar Jelly for	19c
Creamery Butter per lb.	26c
Dairy Butter per lb.	25c
Tea Dust, 1 lb. pk'g. for	11c
Uncolored Japan Tea per lb.	20c
Rio Coffee per lb.	10c

Busy Store

## RUSSIAN CITIES QUIET

NO SERIOUS COLLISIONS ARE REPORTED IN ANY OF THE INDUSTRIAL CENTERS.

## TROOPS CONTROL SITUATION

STRIKERS AT ST. PETERSBURG RETURN TO WORK AT SEVERAL FACTORIES.

With troops patrolling the streets in St. Petersburg, Moscow, Libau, Odessa, Kieff and other industrial centers of Russia, there were no serious collisions Thursday with strikers. In Moscow some of the employers are evincing a willingness to make some concessions to their workmen, but there has been no general agreement on that point. In St. Petersburg the return of workmen has enabled several factories to resume operations and the authorities hope to witness a general resumption there on Monday. The minister of the interior has promised to consider the cases of the prominent writers who were sent to the St. Peter and St. Paul fortress for their activity in the political and economic agitation and he has given a qualified promise that they shall be released.

## THIRTY SHOT DOWN

STRIKERS KILLED OR WOUNDED IN CLASH WITH TROOPS AND POLICE.

London, Jan. 27.—A dispatch to Reuter's Telegram company from Riga confirms the previous announcement of a collision there between strikers and troops. Thirty workmen were killed or wounded and a substitute chief of police and two soldiers were mortally wounded.

The encounter occurred near the Tukdum railroad station. The strikers attacked the troops and attempted to disarm them, when the order was given to fire. All the workshops and factories are closed. The strikers are parading the streets and forcing all workmen to join in the procession.

## SITUATION NOWHERE ACUTE.

No General Disorders Reported in Russian Cities.

St. Petersburg, Jan. 27.—Although the strikes in Reval, Libau, Kieff, Odessa and a few smaller places are extending, the situation is nowhere acute. An increasing number of workmen are out in Moscow, but there is no general tie up or disorder there. The whereabouts of Father Gopon still remains a mystery, although it is believed the priest is in Moscow.

The Russian capital presents almost a normal appearance and the authorities are now confident that the backbone of the strike has been broken. Some factories and mills already have resumed, and a general resumption of operations is expected on Monday. The authorities expect that the failure of the strike here will have a discouraging effect upon the workmen in other cities to which the troubles have been spreading and believe that there is no longer danger of a complete suspension of all the industrial concerns of Russia.

Minister of the Interior Sviatopolk-Mirsky has promised the delegation of editors who called upon him that he will investigate the arrest of a number of prominent writers who are now confined in the St. Peter and St. Paul fortresses and secure their release as soon as possible.

## COMPLETE QUIET AT MOSCOW.

Strikers Generally Refrain From Congregating on Streets.

Moscow, Jan. 27.—The day passed with complete quiet, the strikers generally remaining quietly indoors and not visiting the heart of the city. The Tverskaja and other principal thoroughfares have resumed their normal appearance. Several mills are reported to have offered an increase of wages to their employees.

The Associated Press correspondent visited the industrial district and found that no factories were in operation in the whole region south of the river with the exception of one large establishment which was amply guarded in order to prevent possible intimidation of workmen, but there was no attempt at such intimidation.

Although the strike is steadily spreading the movement thus far has not been accompanied by collisions of great gravity. Thursday's events were restricted to minor skirmishes on the northern and eastern outskirts of the

city in which the troops successfully resisted all efforts of the crowd to break through the cordon. No bloodshed is reported. Both the authorities and the masters have shown admirable coolness in the face of the situation, the former avoiding provocation by studiously concealing the troops and the latter by displaying a readiness to meet the men's demands.

During the Associated Press correspondent's visit to the factories south of the river which employ hundreds of thousands of men he saw no more than 200 workmen in the streets and discovered that the men are all staying indoors. It appears that when the strikers made the rounds of the mills calling on their comrades to quit work under threat of wrecking the plants the masters decided to allow the men to take a holiday with full pay, provided they remain in their dwellings, and the workmen unanimously consented, the result being that the intimidators were disarmed.

In the meanwhile the workmen and masters are negotiating for a settlement of their differences.

The authorities remain confident and the police patrols have been reduced. The situation, however, is none the less uncertain, as it is still a question whether the workmen will remain quiescent if the strike becomes general.

## FANTASTIC STORIES IN LONDON.

But Trustworthy Journals Realize That the Revolt Has Failed.

London, Jan. 27.—Stories so fantastic as to be unworthy of repetition still continue to appear in the St. Petersburg dispatches of some of the London morning newspapers. All the more trustworthy journals, however, have begun to recognize that for the time being the revolt has failed.

The Daily Telegraph's dispatch from St. Petersburg says:

"Order under Cossacks reigns in St. Petersburg. The rebellious workmen have been driven back to their posts, hungry and heartless, and both sides are now busy removing the traces of their recent encounter. Summing up the results, one may say that out of a procession of peaceful workmen the government has forged a revolution which threatens to be all the more horrible that its manifestation is being suppressed."

The Daily Mail's St. Petersburg correspondent says:

"It may as well be recognized at once that, considered as a movement to accomplish a revolution or even to compel the granting of a constitution by a pacific manifestation, the agitation has completely failed. It has accomplished its educational purpose, but it will be long before that is translated into effect; and according to best information all the provincial demonstrations will have a similar result to those in the capital."

A news agency dispatch from St. Petersburg states that the fighting at Riga resulted in twenty-two being killed, including Assistant Police Commissary Bileff, and that fifty were wounded. Seven soldiers, the dispatch adds, were wounded by revolver shots.

## FATHER GOPON TO DIE

PRIEST IS WOUNDED AND WILL BE SENTENCED TO DEATH FOR INCITING RIOT.

Berlin, Jan. 27.—It is reported from St. Petersburg that Father Gopon is lying severely wounded in Alafusoff hospital, and that upon his recovery he will be tried by courtmartial and sentenced to death for inciting insurrection.

## TERRORISTS AFTER THE CZAR.

Russian Ruler Placed on List of Those to Be Killed.

St. Petersburg, Jan. 27.—The most startling and impressive development so far in the Russian situation is the announcement that the boyevaya, the executive branch of the Terrorists, has placed the czar on the list of those condemned to death. Notwithstanding contrary reports, this is the first time the present emperor of Russia has been condemned by this organization, which has the gruesome reputation of never having failed to compass the death of a man against whom its edict has been issued. Its most recent victim was Von Plehve.

## WORK OF INCENDIARIES.

Big Factory in St. Petersburg Said to Be on Fire.

London, Jan. 27.—A dispatch from St. Petersburg to a news agency reports that Pahl's factory and a large cotton mill have been set on fire and are burning fiercely.

## RESULT OF DOMESTIC TROUBLES.

Michigan Man Kills His Wife and Himself.

Battle Creek, Mich., Jan. 27.—Harry A. Knickerbocker, a painter, Thursday shot and instantly killed his wife in their home here and then killed himself. They had had domestic troubles.

## H. F. MICHAEL CO'S Daily Store News.

### White Sale Remnant Day.

A successful sale of two weeks naturally creates remnants. Desirable ones too, for the best most generally sell first. To make a sale a success many goods must be displayed and White goods soil easily.

For this remnant sale we have many short lengths and some few things that have become slightly soiled. This does not depreciate their real value for you will introduce the most of them to the tub before using.

Our spacious sales tables will be covered with remnants of

Table Linens  
White Wastings  
Curtain Swisses  
Embroideries  
Muslins  
Cambrics  
Corset Cover Embroideries  
Long Cloths  
India Linens  
Sheetings  
Val Laces  
Torchon Laces

And other white goods at a decided saving. We know you will appreciate these bargains.

### The Last Day of the White Sale

Prices advertised during the last two weeks will be obtainable tomorrow. That is, on such goods as remain, and the assortments are yet very good. Come in Saturday and complete your "White" purchases for your spring sewing while our prices are obtainable.

## IMPORTANT MEASURE

FINALLY AGREED UPON BY PRESIDENT ROOSEVELT AND HIS ADVISERS.

## AFFECTS LABOR INJUNCTIONS

PARTY TO BE ADVERSELY AFFECTED MAY FIRST APPEAR IN COURT.

Washington, Jan. 27.—An important measure which is the result of two-months conferences between President Roosevelt, Attorney General Moody, Commissioner of Corporations Garfield and representatives of labor organizations and corporate interests has been introduced in the house by Representative Jenkins of Wisconsin, chairman of the judiciary committee. It provides that in labor disputes an injunction shall not be issued until opportunity shall have been afforded the adverse party to the proceedings to be heard by the court and is intended as a substitute for measures pending in congress. It was introduced with the idea of furnishing to congress a basis of legislative action that was satisfactory to the interests of both labor and capital. Commissioner Garfield thus explained the bill:

"The original statute of 1793 provided that a hearing should be had before the issuance of any extraordinary writ. Equity rule 55 simply carried that provision into effect in all injunction proceedings. Under the revision of the revised statutes in 1872, the old law was so changed as, in effect, to repeal that part of equity rule No. 55 requiring the giving of notice before granting the temporary restraining order. This bill restores that provision of the rule. Its effect will be not to limit the right of injunction, but it will prevent the improvident granting of writs of injunction by affording the adverse party an opportunity to be heard before action is taken by the court."

## ELECTIONS IN HUNGARY.

Will Probably Result in Downfall of Premier Tisza.

Budapest, Hungary, Jan. 27.—The elections are proceeding throughout the country with the aid of troops to preserve order. No serious disorders have yet been reported, but some rioting has occurred in several provincial towns, and in the Sixth district of Budapest, where Socialists attacked Minister Plebimis' supporters and the military were obliged to interfere. The results reported are too fragmentary to afford a prediction with accuracy, but there are some indications that Premier Tisza will fall to command a majority in the new chamber of deputies sufficiently large to justify his retention of the reins of government.

## ENORMOUS WAR PREPARATIONS.

Japan Planning to Carry on Operations on Large Scale.

London, Jan. 27.—The Daily Telegraph's Tokyo correspondent says that Japan is making enormous war preparations. Besides immediately laying down a battleship of 19,000 tons at Yokosuka, and the contemplated building in Japan of a 12,000-ton cruiser, large additions to her torpedo and submarine flotillas and two cruisers have already been started building at Kure. All future ships will be heavily armed, but guns below the 10-inch caliber will be discarded.

"The Fifth army is being organized under command of Lieutenant General Kawamura," the correspondent says, "who is calling out more reservists. Conscripts are expected. All men under forty years of age are being drilled."

"The blockading of Vladivostok is imminent. A fleet of cruisers is leaving for the south and Admirals Togo and Kamimura will follow with battleships. Three cruisers and several torpedo boat destroyers are in the neighborhood of Borneo. A division of troops has been landed in Formosa. "It is now evident that the cruiser Takasago was lost. The names of her crew from the commander down are now officially published as killed. "Negotiations continue for the purchase of a Chilean cruiser. Fifteen new submarine boats will be provided this year. Ten recently arrived under control of American instructors."

## TROOPS RELUCTANT TO FIGHT.

Kuropatkin's European Soldiers See No Object in Continuing War.

London, Jan. 27.—The Daily Telegraph's St. Petersburg correspondent asserts that General Kuropatkin has telegraphed to the emperor that his offensive power is seriously hampered by the obstinate reluctance of his troops from the European provinces to advance against the enemy. Whilst the Cossacks and Siberians are full of dash, the Europeans argue that now that Port Arthur has surrendered there is no object in continuing the war.

## FOUR MINERS KILLED.

All of Them Met Death From Dynamite Explosions.

Calumet, Mich., Jan. 27.—Blasting caused almost instant death to four Finnish miners in local mines Thursday. Henry Aho and John Reini were killed at the Tamarack mine. A charge of dynamite exploded while they were recharging the hole. John and Jacob Kostunen, brothers, died as the result of a premature explosion of a charge in the Champion mine.

## MAY SETTLE COAL STRIKE.

German Operators Agree to Accept Verdict of Commission.

Essen, Prussia, Jan. 27.—The coal mine owners have reached a decision that probably will result in a settlement of the strike. They determined to inform the government that they would accept any judgment a parliamentary commission might render after an inquiry into the grievances of the miners and that the owners immediately remove the grievances.

## ARMY BILL IS AMENDED.

General Miles Not Affected by Retired Officer Provision.

Washington, Jan. 27.—The senate Thursday passed the army appropriation bill after modifying the provision concerning the assignment of retired army officers to active service with the militia organizations. The effect of the change is to relieve General Miles from its application.

Mr. Gallinger and others criticised the amendment regulating the sale of army transports, claiming that the use of government vessels forced unfair competition upon the owners of private vessels. Mr. Hale condemned the operation of the general tariff system in the army and said he would oppose any effort to establish a similar system in the navy.

## THE AGRICULTURAL BILL.

The Principal Topic of Debate in the House.

Washington, Jan. 27.—The agricultural bill was considered in the house Thursday but the debate turned principally on the topic of restricting railroads in the matter of freight rates, the Hepburn bill forming the basis of the discussion. Mr. Williams of Mississippi said that the Democratic party was committed to views such as were expressed by the president in his message to congress.

Consideration of the agricultural bill had not been concluded when the house adjourned.

## FIGHTING IN SEVERE COLD.

Heaviest Engagement for Months Occurs in Manchuria.

General Kuropatkin's Headquarters, Jan. 27.—A heavy and continuous artillery firing has been heard to the westward all of Thursday. Apparently the largest engagements since October is being fought. Reports received here are to the effect that a Russian force has crossed the Hun river on the Japanese left wing. A Japanese force advanced against the Russians, making an attack.

The fighting must be attended with great suffering from the cold. A snow storm began Monday, following a long period of remarkable mildness. The temperature is below zero and the plains are covered with several inches of snow. The ground is too hard for rapid trenching. Thursday's move by the Russians is the first important one since General Mischchenko's recent raid.

## Horses for the Japanese.

Lead, S. D., Jan. 27.—About 4,000 head of horses have been contracted by an agent who is said to be acting for the Japanese government. The first consignment has left Moorcroft, Wyo., where the agent has headquarters.

## POLICE SEARCHING FOR HOCH.

Inferred That He Was in Chicago Within Past Three Days.

Chicago, Jan. 27.—The police have information that Hoch was in Chicago within the past three days, and they have redoubled their efforts to come up with him. A large number of officers are searching for him.

# THE DAILY DISPATCH.

BY INGERSOLL & WIELAND.

E. O. GRIFFITH, City Editor.

Entered at the post-office at Brainerd, Minn., as second class matter.

## SUBSCRIPTION RATES.

One Week.....Ten Cents  
One Month.....Forty Cents  
One Year.....Four Dollars

FRIDAY, JANUARY 27, 1905.

## Weather

Forecast—Fair tonight. Cooler Saturday.

Temperature (Record kept by Dr. J. L. Camp for 24 hours ending at 5 o'clock yesterday evening)—Maximum 15 above zero; minimum 19 below zero.

The Owatonna Journal is in the hands of a receiver.

The east is snow bound and in New York five people have frozen to death during the recent cold snap. It must be something awful to live in such a rigorous climate.

To abolish the death penalty unless recommended by the jury is the text of a bill before the legislature. It is claimed that with this measure on the statute books it will be much easier to get convictions where only circumstantial evidence is produced.

The prediction is freely made that Bryan will be the acknowledged leader of the democratic party in the next campaign. He certainly has the so called party leaders all watching him with jealous eyes and occupies the center of the stage.

## TROUBLE FOR SETTLERS.

A large number of cash purchasers of government lands have during the past few days received letters from the Cass Lake land office notifying them of a decision of the general land office to the effect that their entries were improperly allowed. The notices are dated January 6, and the settlers are allowed 30 days in which to show cause why their entries should not be cancelled, says the St. Cloud Journal-Press. It is claimed by the commissioner of the general land office that the revisions of the general lands law authorizing the private sales of government lands containing pine timber have been repealed by implication of recent legislation. Entrymen who fail to show cause within 30 days why their entries should not be cancelled will lose their claims. The ruling affects a large number of settlers in Beltrami county and in adjacent counties and will cause a large amount of trouble and expense for the residents of these counties, who have put up their money in good faith, received receipts from the government and have in some cases for two years supposed themselves to be the bona fide owners of the land.

## 13 Years of Intense Suffering.

Thirteen years I suffered intensely from rheumatism writes Mrs. Mina Schout, of Marion, Ohio, but Gloria Tonic cured me after using morphine and other worthless drugs for years. Sold by H. P. Dunn & Co. mwf

## Figuring on the Future.

The Little Falls Transcript has figured out a new Northern Pacific deal that if consummated is expected to work wonders for our neighbor city. The Transcript says:

"It has been rumored among railway employes for some time that the railway company intended to move the division headquarters from Staples to Wadena. Nothing authentic has been announced, but recently the company has purchased twenty acres of land at Wadena to be used for shops and round-houses. If the division point is moved to Wadena, it is an assured fact that this city will be made a division point, at least for the way freights and the Minnesota & International trains. This would make Little Falls an important railroad town and bring it many more people. Nothing has been announced in regard to running the M. & I. trains to this station, but it is understood that if the division headquarters are changed several changes will be made in the train schedule, and improvements will be made in the service on the cut-off."

## Why not get it

when you can get sure relief from a violent cough? Gloria Lung Balsam will do this every time. It is made of honey, tar, wild cherry, etc., and is the best for children. Sold by H. P. Dunn & Co. mwf

Old papers for sale at this office.

## Advertised Letters.

## LOCAL NEWS NOTES.

Rev. A. Mattson came in from the west this afternoon.

Mrs. Hobbs left this afternoon for the twin cities for a visit.

Sheriff O. P. Erickson came in from the west this afternoon.

J. W. Ryan, of St. Paul, is calling on the trade this afternoon.

G. R. Merritt left for St. Paul this afternoon for a few days' visit.

Mr. and Mrs. R. R. Wise returned from the twin cities this afternoon.

Capt. Knox, of Aitkin, returned from the twin cities this afternoon.

C. E. McMillan, of Motley, is in the city on business this afternoon.

John Crone and John Brand, of Deerwood, are in the city on business.

Attorney E. H. Krelwitz, of Aitkin, is in the city today on legal business.

Attorney L. E. Lum, of Duluth, is in the city this afternoon on business.

Rev. and Mrs. Cummings returned to their home at Royalton this afternoon.

Eugene McCarthy came in this morning from Minneapolis for a few days' visit.

The condition of T. J. Tyler, who is at the N. P. Sanitarium, continues to improve.

J. L. Smith, of Minneapolis, went north this morning on the M. & I. on business.

T. V. Grant returned this morning from Clouet where he has been on business for some time.

Mrs. F. E. Low returned from Fargo this afternoon where she has been visiting for some time.

Hiram Smith, of Sauk Centre, the well known insurance man, was in the city this morning on business.

Mrs. O. F. Johnson returned this afternoon from Red Wing where she has been visiting for a short time.

D. R. Craig left this afternoon for southern Iowa, being called by the illness of a brother-in-law. He expects to be gone several days.

Rev. William Fletcher, of Aitkin, passed through the city this afternoon en route to Big Lake where he will conduct a series of meetings.

The notice in yesterday's DISPATCH for a meeting of the Sons of Veterans should have read for Saturday evening instead of Friday evening. All members are urged to be at the hall tomorrow, Saturday evening as it is expected there will be muster of recruits.

Little Miss Marie Koop, daughter of Mr. and Mrs. J. W. Koop, is entertaining some forty-five of her young friends at her home this afternoon, commemorating her sixth birthday anniversary. The little people are being royally entertained.

It is reported that another night switching crew will be put on in the local yards by the N. P. in a short time. O. J. Engan has taken a position as switchman and expects to go to Duluth in a few days to take the regular examination.

The helping hand circle met Wednesday with Mrs. J. Hall. Mrs. Sabin, Mrs. Lake and Mrs. Larson were appointed as a relief committee to attend to any family in need. The circle will meet with Mrs. T. K. Lake Feb. 8. Everyone invited.

Jule Jamieson came in from St. Paul this afternoon. He was accompanied by C. A. Jamieson and wife, who will visit here for some time. The latter Mr. Jamieson is superintendent of the Big Jewel mine in Oregon and has just returned from the mine. He was accompanied by Percy Crawford, who has been cooking for him.

La grippe coughs yield quickly for the wonderful curative qualities of Foley's Honey and Tar. There is nothing else "just as good." H. P. Dunn & Co. mwf

## AN ASPHALT LAKE.

The Way the Stuff is Mined and Prepared For Market.

The largest South American asphalt lake, in Venezuela, consists of a dark brownish deposit of semifluid and semisolid substance surrounded by banks from three to six feet high. In the center of this lake is a continual ejection of hot fluid asphalt, accompanied by large bubbles of gas.

The dark skinned workmen excavate it in pieces weighing in the neighborhood of twenty-five pounds, sections forty feet in area and about four feet deep being worked at one time. As quickly as freed from its surroundings it is placed in large tubs, resting upon small flat topped tram cars operated upon a narrow gauge road. The entire surface is constantly moving, thus necessitating a continual relaying of the tracks.

The freshly excavated asphalt is conveyed to the shore, where the tubs are lifted by hydraulic power to an aerial tramway, by which it is conveyed to the large wharf situated on the Guanero river, about five miles distant from the lake. Here it is weighed and dumped into vessels which convey it to the foreign lands.

Upon its arrival at a factory it is heated until the water is expelled and the earthy material cast to the bottom of the large vats, and it is poured through a sieve into barrels, where it solidifies. It is then ready for commerce.—New York Tribune.

## DUBLIN JARVIES.

The Happy Go Lucky Hackmen of the Irish Metropolis.

The Dublin Jarvies are not what you would call good whips. They drive, as unladylike people say, like the devil; they cut around corners feathily enough and go slashing up heartbreaking hills, but nine out of ten of them drive with a loose rein. They talk to the fare, and the little horse runs on, doing the best he can and following his own dauntless will. I lay no fault upon the Jarvy. The Irish horse shares Paddy's gragh for independence. Of him, too, it may be said that he serves without servility.

The Jarvy—light hearted lad, be he young or old—gains in the run of the days an average of 6 shillings. The fares are jolly cheap. For a "set down" within the boundary the charge for two persons between 9 a. m. and 10 p. m. is only sixpence. By time the charges are one and six an hour, with an added sixpence for each succeeding hour. Still the Jarvy does fairly well. Barney, who is no better than the others, took me to his home. It was in Spring Gardens, where there are rows upon rows of neat little red brick cottages, with gardens and stables. They rent at £20 a year. Owning his car as he does, Barney pays no car rent to any one, and if he drives Lawler's mare 'tis more for love than profit. Year in and year out he puts by a bit, for the "chilidher, God bless 'em," are growing and will have need of education. In his smart little home, with his smart little wife, there are unluckier men than he.

"If 'twere not for the fightin'," says Mrs. O'Hea, "a better man than Barney never pulled a shirt over his head."

Barney, it seems, believes that animosities should be cultivated. Being a good man with his hands and blithe and gay in battle, he colors the week's end with riot.—Vance Thompson in Outing.

## SEA GAZING IN BERMUDA.

Wonderful Life of Crystal Depths as Revealed to the Observer.

It was a little parrot fish that started out so briskly on this summer morning. Whether he was eager to keep an appointment or had been unexpectedly summoned to a distant part of his world one will never know, but one may be certain that the matter was of the greatest consequence so far as the little fish was concerned. Keeping his bright eyes fixed straight ahead, he passed a corner of the reef where the coral was incrustated with mollusks and sea urchins and where a pair of beautiful squirrel fish, deeply engrossed in sentimental affairs, turned to look after him wondering through their enormous eyes. Below in a deep pool a school of spotted trunkfish played heedlessly, while under a projecting plate of staghorn coral a huge grouper waited expectantly, but as the parrot fish, warned of his danger, turned quickly away he gave his attention to a pair of gray snappers—great, quiet, ghostly figures that seemed like two shadows drifting along far down through the green waters.

A few feet farther on and the hurrying parrot fish passed a tall sea fan, around which three dainty butterfly fish, clad brilliantly in yellow, were peering into each nook and corner in their search for small prey, while a sober cownfish, with his two conspicuous horns, looked on sedately. Suddenly the parrot fish turned sharply aside to avoid a spot where the reef was broken by jutting rocks covered with green ulva. Around this a school of bright little zebra striped sergeant majors were sporting, while just to the right an angelfish, whose blue body tipped with gold first attracted the attention of the mariners so many centuries ago, sailed from under a purple gorgonia with a disdainful air.—Metropolitan Magazine.

## Flow of Spirits in Youth.

How unaccountable the flow of spirits in youth. You may throw sticks and dirt into the current and it will only rise the higher. Dam it up you may, but dry it up you may not, for you cannot reach its source. If you stop up this avenue or that, anon it will come gurgling out where you least expected and wash away all fixtures. Youth grasps at happiness as an inalienable right. The tear does no sooner rush than glisten. Who shall say when the tear that sprung of sorrow first sparkled with joy?—H. D. Thoreau in Atlantic.

## The Rose and Its Thorns.

This is the old legend of how the rose came by its thorns: One day in paradise Cupid was flying over a garden of roses. Blossoming there was a beautiful pink rose. Cupid bent to kiss it when a bee hidden in the flower stung him on the lip. Crying with pain, Cupid fled to Venus, his mother, demanding vengeance. Venus, to pacify him, gave him a bow strung with captive bees and set the stem of the rose with stings torn from the poor bees. Three stings now are called thorns.

His Appearance Under Difficulties.

"Robbed by footpads, were you? It must have made you feel like 30 cents."  
"Yes, and I'll bet I looked like 12 o'clock."  
"How do you mean?"  
"Hands up."—Philadelphia Ledger.

## MORE TALK OF A COMMERCIAL CLUB

Meeting of Business Men to be Held on Monday Evening for This Purpose

## TO LOOK AFTER CITY'S INTERESTS

The Meeting on Monday is Strictly for Men and Invitations are Cut

Brainerd will probably have a commercial club, something that is generally conceded to be a great need, if the present plans of the more enterprising business men do not miscarry. A meeting has been called for Monday evening at 8 o'clock at Columbian hall and invitations are being extended to the most prominent business men in the city to be present. This will not be an open meeting but will be limited to those who are being requested to be present, as it is believed that the best results can be accomplished in this manner.

These gentlemen who are to meet on Monday evening will make an effort to organize the club and after that the membership will be voted on in the regular manner.

The object of the club will be to look after the interests of the city in all lines, commercial and industrial, and the result cannot but help be of great good, as no well regulated city of the size of Brainerd is without its board of trade or commercial club.

## MAKE WORK EASIER.

Brainerd People are Pleased to Learn

How it is Done.

It's pretty hard to attend to duties With a constantly aching back; With annoying urinary disorders. Doan's Kidney Pills make work easier. They cure backache. They cure every kidney ill.

Mrs. Peter Christenson, of 1101 Rosewood St., S. E. Brainerd, Minn., says: "It is over two years ago when Mr. Christenson was doing heavy contract work that kidney complaint made its appearance in the form of backache and pains over the kidneys. Sometimes it caused lameness so bad that it required great effort to keep at work, and at best there was a continual annoyance. Doan's Kidney Pills, sold by H. P. Dunn & Co., druggists, were procured on the advice of a friend, and the results of their use was so satisfactory that every symptom of his trouble disappeared. The improvement in his condition has remained unchanged during the time which has elapsed since then."

Sold for 50 cents a box by H. P. Dunn & Co., and all druggists. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name—Doan's—and take no substitute.

## DR. A. W. CHASE'S NERVE PILLS

The world is full of women whose daily life is one long struggle against diseases peculiar to their sex—whose days and nights are full of quiet, patient suffering. The head the seat of pain and pressure—the result of nerve depression and physical weakness brought on by uterine or ovarian trouble—the nerves on edge—inclined to laugh or cry at anything—an ever present dragging in the back, hips and limbs—a feeling of utter weariness—lassitude and despondency. To these people Dr. A. W. Chase's Nerve Pills are of incomparable value, having as they do the power to rebuild, to reinvigorate and resupply every organ, every nerve, and to insure a complete return to health, strength and vigor again.

Mrs. John Bailey of Jackson St., Penn Yan, N. Y., says:

"I was told that Dr. A. W. Chase's Nerve Pills were a great nerve medicine, and as I needed one badly, I got a box. My nerves were very weak—I lacked ambition and strength and my heart action was very weak. I used the pills as directed and they made my nerves quiet and steady—the heart action strong and regular and the appetite good, my sleep became restful and I feel altogether like another person. I think as a remedy in female complaints as well, they are grand, curing the headaches and heavy, dragging feeling rapidly and easily—this I know from experience, and I am glad to recommend them." 50c a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. Portrait and signature of A. W. Chase, M. D., on every package.

For sale by H. P. Dunn & Co., Central Drug store, Nat'l bank block, Brainerd, Minn.

FRIDAY, JANUARY 27, 1905.

Weather  
Forecast—Fair tonight. Cooler Saturday.

Temperature (Record kept by Dr. J. L. Camp for 24 hours ending at 5 o'clock yesterday evening)—Maximum 15, above zero; minimum 19 below zero.

The Owatonna Journal is in the hands of a receiver.

The east is snow bound and in New York five people have frozen to death during the recent cold snap. It must be something awful to live in such a rigorous climate.

To abolish the death penalty unless recommended by the jury is the text of a bill before the legislature. It is claimed that with this measure on the statute books it will be much easier to get convictions where only circumstantial evidence is produced.

The prediction is freely made that Bryan will be the acknowledged leader of the democratic party in the next campaign. He certainly has the so called party leaders all watching him with jealous eyes and occupies the center of the stage.

## TRouble for Settlers.

A large number of cash purchasers of government lands have during the past few days received letters from the Cass Lake land office notifying them of a decision of the general land office to the effect that their entries were improperly allowed. The notices are dated January 6, and the settlers are allowed 30 days in which to show cause why their entries should not be cancelled, says the St. Cloud Journal Press. It is claimed by the commissioner of the general land office that the revisions of the general lands law authorizing the private sales of government lands containing pine timber have been repealed by implication of recent legislation. Entrymen who fail to show cause within 30 days why their entries should not be cancelled will lose their claims. The ruling affects a large number of settlers in Beltrami county and in adjacent counties and will cause a large amount of trouble and expense for the residents of these counties, who have put up their money in good faith, received receipts from the government and have in some cases for two years supposed themselves to be the bona fide owners of the land.

## 13 Years of Intense Suffering.

Thirteen years I suffered intensely from rheumatism writes Mrs. Mina Schoot, of Marion, Ohio, but Gloria Tonic cured me after using morphine and other worthless drugs for years. Sold by H. P. Dunn & Co. mwf

## Figuring on the Future.

The Little Falls Transcript has figured out a new Northern Pacific deal that if consummated is expected to work wonders for our neighbor city. The Transcript says:

"It has been rumored among railway employes for some time that the railway company intended to move the division headquarters from Staples to Wadena. Nothing authentic has been announced, but recently the company has purchased twenty acres of land at Wadena to be used for shops and round-houses. If the division point is moved to Wadena, it is an assured fact that this city will be made a division point, at least for the way freights and the Minnesota & International trains. This would make Little Falls an important railroad town and bring it many more people. Nothing has been announced in regard to running the M. & I. trains to this station, but it is understood that if the division headquarters are changed several changes will be made in the train schedule, and improvements will be made in the service on the cut-off."

## Why not get it

when you can get sure relief from a violent cough? Gloria Lung Balsam will do this every time. It is made of honey, tar, wild cherry, etc., and is the best for children. Sold by H. P. Dunn & Co. mwf

# LOCAL NEWS NOTES.

Rev. A. Mattson came in from the west this afternoon.

Mrs. Hobbs left this afternoon for the twin cities for a visit.

Sheriff O. P. Erickson came in from the west this afternoon.

J. W. Ryan, of St. Paul, is calling on the trade this afternoon.

G. R. Merritt left for St. Paul this afternoon for a few days' visit.

Mr. and Mrs. R. R. Wise returned from the twin cities this afternoon.

Capt. Knox, of Aitkin, returned from the twin cities this afternoon.

C. E. McMillan, of Motley, is in the city on business this afternoon.

John Crone and John Brand, of Deerwood, are in the city on business.

Attorney E. H. Krelwitz, of Aitkin, is in the city today on legal business.

Attorney L. E. Lum, of Duluth, is in the city this afternoon on business.

Rev. and Mrs. Cummings returned to their home at Royalton this afternoon.

Eugene McCarthy came in this morning from Minneapolis for a few days' visit.

The condition of T. J. Tyler, who is at the N. P. Sanitarium, continues to improve.

J. L. Smith, of Minneapolis, went north this morning on the M. & I. on business.

T. V. Grant returned this morning from Cloquet where he has been on business for some time.

Mrs. F. E. Low returned from Fargo this afternoon where she has been visiting for some time.

Hiram Smith, of Sauk Centre, the well known insurance man, was in the city this morning on business.

Mrs. O. F. Johnson returned this afternoon from Red Wing where she has been visiting for a short time.

D. R. Craig left this afternoon for southern Iowa, being called by the illness of a brother-in-law. He expects to be gone several days.

Rev. William Fletcher, of Aitkin, passed through the city this afternoon en route to Big Lake where he will conduct a series of meetings.

The notice in yesterday's DISPATCH for a meeting of the Sons of Veterans should have read for Saturday evening instead of Friday evening. All members are urged to be at the hall tomorrow, Saturday evening as it is expected there will be muster of recruits.

Little Miss Marie Koop, daughter of Mr. and Mrs. J. W. Koop, is entertaining some forty-five of her young friends at her home this afternoon, commemorating her sixth birthday anniversary. The little people are being royally entertained.

It is reported that another night switching crew will be put on in the local yards by the N. P. in a short time.

O. J. Egan has taken a position as switchman and expects to go to Duluth in a few days to take the regular examination.

The helping hand circle met Wednesday with Mrs. J. Hall. Mrs. Sabin, Mrs. Lake and Mrs. Larson were appointed as a relief committee to attend to any family in need. The circle will meet with Mrs. T. K. Lake Feb. 8. Everyone invited.

Jule Jamieson came in from St. Paul this afternoon. He was accompanied by C. A. Jamieson and wife, who will visit here for some time. The latter Mr. Jamieson is superintendent of the Big Jewel mine in Oregon and has just returned from the mine. He was accompanied by Percy Crawford, who has been cooking for him.

La grippe coughs yield quickly for the wonderful curative qualities of Foley's Honey and Tar. There is nothing else "just as good." H. P. Dunn & Co. mwf

## AN ASPHALT LAKE.

The Way the Stuff is Mined and Prepared For Market.

The largest South American asphalt lake, in Venezuela, consists of a dark brownish deposit of semifluid and semisolid substance surrounded by banks from three to six feet high. In the center of this lake is a continual ejection of hot fluid asphalt, accompanied by large bubbles of gas.

The dark skinned workmen excavate it in pieces weighing in the neighborhood of twenty-five pounds, sections forty feet in area and about four feet deep being worked at one time. As quickly as freed from its surroundings it is placed in large tubs, resting upon small flat topped tram cars operated upon a narrow gauge road. The entire surface is constantly moving, thus necessitating a continual relaying of the tracks.

The freshly excavated asphalt is conveyed to the shore, where the tubs are lifted by hydraulic power to an aerial tramway, by which it is conveyed to the large wharf situated on the Guanero river, about five miles distant from the lake. Here it is weighed and dumped into vessels which convey it to the foreign lands.

Upon its arrival at a factory it is heated until the water is expelled and the earthy material cast to the bottom of the large vats, and it is poured through a sieve into barrels, where it solidifies. It is then ready for commerce.—New York Tribune.

## DUBLIN JARVIES.

The Happy Go Lucky Hackmen of the Irish Metropolis.

The Dublin jarvies are not what you would call good whips. They drive, as unladylike people say, like the devil; they cut around corners feintly enough and go slashing up heartbreaking hills, but nine out of ten of them drive with a loose rein. They talk to the fare, and the little horse runs on, doing the best he can and following his own dauntless will. I lay no fault upon the jarvy. The Irish horse shares Paddy's gragh for independence. Of him, too, it may be said that he serves without servility.

The jarvy—light hearted lad, be he young or old—gains in the run of the days an average of 6 shillings. The fares are jolly cheap. For a "set down" within the boundary the charge for two persons between 9 a. m. and 10 p. m. is only sixpence. By time the charges are one and six an hour, with an added sixpence for each succeeding hour. Still the jarvy does fairly well. Barney, who is no better than the others, took me to his home. It was in Spring Gardens, where there are rows upon rows of neat little red brick cottages, with gardens and stables. They rent at £20 a year. Owning his car as he does, Barney pays no car rent to any one, and if he drives Lawler's mare 'tis more for love than profit. Year in and year out he puts by a bit, for the "childer, God bless 'em," are growing and will have need of education. In his smart little home, with his smart little wife, there are unluckier men than he.

"If 'twere not for the fightin'," says Mrs. O'Hea, "a better man than Barney never pulled a shirt over his head."

Barney, it seems, believes that animosities should be cultivated. Being a good man with his hands and blithe and gay in battle, he colors the week's end with riot.—Vance Thompson in Outlook.

## SEA GAZING IN BERMUDA.

Wonderful Life of Crystal Depths as Revealed to the Observer.

It was a little parrot fish that started out so briskly on this summer morning. Whether he was eager to keep an appointment or had been unexpectedly summoned to a distant part of his world one will never know, but one may be certain that the matter was of the greatest consequence so far as the little fish was concerned. Keeping his bright eyes fixed straight ahead, he passed a corner of the reef where the coral was incrustated with mollusks and sea urchins and where a pair of beautiful squirrel fish, deeply engrossed in sentimental affairs, turned to look after him wonderingly through their enormous eyes. Below in a deep pool a school of spotted trunkfish played heedlessly, while under a projecting plate of staghorn coral a huge grouper waited expectantly, but as the parrot fish, warned of his danger, turned quickly away he gave his attention to a pair of gray snappers—great, quiet, ghostly figures that seemed like two shadows drifting along far down through the green waters.

A few feet farther on and the hurrying parrot fish passed a tall sea fan, around which three dainty butterfly fish, clad brilliantly in yellow, were peering into each nook and corner in their search for small prey, while a sober cowfish, with his two conspicuous horns, looked on sedately. Suddenly the parrot fish turned sharply aside to avoid a spot where the reef was broken by jutting rocks covered with green ulva. Around this a school of bright little zebra striped sergeant majors were sporting, while just to the right an angelfish, whose blue body tipped with gold first attracted the attention of the mariners so many centuries ago, sailed from under a purple gorgonia with a disdainful air.—Metropolitan Magazine.

The notices are dated January 6, and the settlers are allowed 30 days in which to show cause why their entries should not be cancelled, says the St. Cloud Journal-Press. It is claimed by the commissioner of the general land office that the revisions of the general lands law authorizing the private sales of government lands containing pine timber have been repealed by implication of recent legislation. Entrymen who fail to show cause within 30 days why their entries should not be cancelled will lose their claims. The ruling affects a large number of settlers in Beltrami county and in adjacent counties and will cause a large amount of trouble and expense for the residents of these counties, who have put up their money in good faith, received receipts from the government and have in some cases for two years supposed themselves to be the bona fide owners of the land.

## 13 Years of Intense Suffering.

Thirteen years I suffered intensely from rheumatism writes Mrs. Mina Schoot, of Marion, Ohio, but Gloria Tonic cured me after using morphine and other worthless drugs for years. Sold by H. P. Dunn & Co. mwf

## Figuring on the Future.

The Little Falls Transcript has figured out a new Northern Pacific deal that if consummated is expected to work wonders for our neighbor city. The Transcript says:

"It has been rumored among railway employes for some time that the railway company intended to move the division headquarters from Staples to Wadena. Nothing authentic has been announced, but recently the company has purchased twenty acres of land at Wadena to be used for shops and round-houses. If the division point is moved to Wadena, it is an assured fact that this city will be made a division point, at least for the way freights and the Minnesota & International trains. This would make Little Falls an important railroad town and bring it many more people. Nothing has been announced in regard to running the M. & I. trains to this station, but it is understood that if the division headquarters are changed several changes will be made in the train schedule, and improvements will be made in the service on the cut-off."

## Why not get it

when you can get sure relief from a violent cough? Gloria Lung Balsam will do this every time. It is made of honey, tar, wild cherry, etc., and is the best for children. Sold by H. P. Dunn & Co. mwf

Old papers for sale at this office.

## Advertised Letters.

## LOCAL NEWS NOTES.

Rev. A. Mattson came in from the west this afternoon.

Mrs. Hobbs left this afternoon for the twin cities for a visit.

Sheriff O. P. Erickson came in from the west this afternoon.

J. W. Ryan, of St. Paul, is calling on the trade this afternoon.

G. R. Merritt left for St. Paul this afternoon for a few days' visit.

Mr. and Mrs. R. R. Wise returned from the twin cities this afternoon.

Capt. Knox, of Aitkin, returned from the twin cities this afternoon.

C. E. McMillan, of Motley, is in the city on business this afternoon.

John Crone and John Brand, of Deerwood, are in the city on business.

Attorney E. H. Krelwitz, of Aitkin, is in the city today on legal business.

Attorney L. E. Lum, of Duluth, is in the city this afternoon on business.

Rev. and Mrs. Cummings returned to their home at Royalton this afternoon.

Eugene McCarthy came in this morning from Minneapolis for a few days' visit.

The condition of T. J. Tyler, who is at the N. P. Sanitarium, continues to improve.

J. L. Smith, of Minneapolis, went north this morning on the M. & I. on business.

T. V. Grant returned this morning from Cloquet where he has been on business for some time.

Mrs. F. E. Low returned from Fargo this afternoon where she has been visiting for some time.

Hiram Smith, of Sauk Centre, the well known insurance man, was in the city this morning on business.

Mrs. O. F. Johnson returned this afternoon from Red Wing where she has been visiting for a short time.

D. R. Craig left this afternoon for southern Iowa, being called by the illness of a brother-in-law. He expects to be gone several days.

Rev. William Fletcher, of Aitkin, passed through the city this afternoon en route to Big Lake where he will conduct a series of meetings.

The notice in yesterday's DISPATCH for a meeting of the Sons of Veterans should have read for Saturday evening instead of Friday evening. All members are urged to be at the hall tomorrow, Saturday evening as it is expected there will be muster of recruits.

Little Miss Marie Koop, daughter of Mr. and Mrs. J. W. Koop, is entertaining some forty-five of her young friends at her home this afternoon, commemorating her sixth birthday anniversary. The little people are being royally entertained.

It is reported that another night switching crew will be put on in the local yards by the N. P. in a short time. O. J. Engan has taken a position as switchman and expects to go to Duluth in a few days to take the regular examination.

The helping hand circle met Wednesday with Mrs. J. Hall. Mrs. Sabin, Mrs. Lake and Mrs. Larson were appointed as a relief committee to attend to any family in need. The circle will meet with Mrs. T. K. Lake Feb. 8. Everyone invited.

Jule Jamieson came in from St. Paul this afternoon. He was accompanied by C. A. Jamieson and wife, who will visit here for some time. The latter Mr. Jamieson is superintendent of the Big Jewel mine in Oregon and has just returned from the mine. He was accompanied by Percy Crawford, who has been cooking for him.

La grippe coughs yield quickly for the wonderful curative qualities of Foley's Honey and Tar. There is nothing else "just as good." H. P. Dunn & Co. mwf

## AN ASPHALT LAKE.

The Way the Stuff is Mined and Prepared For Market.

The largest South American asphalt lake, in Venezuela, consists of a dark brownish deposit of semifluid and semisolid substance surrounded by banks from three to six feet high. In the center of this lake is a continual ejection of hot fluid asphalt, accompanied by large bubbles of gas.

The dark skinned workmen excavate it in pieces weighing in the neighborhood of twenty-five pounds, sections forty feet in area and about four feet deep being worked at one time. As quickly as freed from its surroundings it is placed in large tubs, resting upon small flat topped tram cars operated upon a narrow gauge road. The entire surface is constantly moving, thus necessitating a continual relaying of the tracks.

The freshly excavated asphalt is conveyed to the shore, where the tubs are lifted by hydraulic power to an aerial tramway, by which it is conveyed to the large wharf situated on the Guanero river, about five miles distant from the lake. Here it is weighed and dumped into vessels which convey it to the foreign lands.

Upon its arrival at a factory it is heated until the water is expelled and the earthy material cast to the bottom of the large vats, and it is poured through a sieve into barrels, where it solidifies. It is then ready for commerce.—New York Tribune.

## DUBLIN JARVIES.

The Happy Go Lucky Hackmen of the Irish Metropolis.

The Dublin Jarvies are not what you would call good whips. They drive, as unladylike people say, like the devil; they cut around corners feintly enough and go slashing up heartbreaking hills, but nine out of ten of them drive with a loose rein. They talk to the fare, and the little horse runs on, doing the best he can and following his own dauntless will. I lay no fault upon the Jarvy. The Irish horse shares Paddy's gragh for independence. Of him, too, it may be said that he serves without servility.

The Jarvy—light hearted lad, be he young or old—gains in the run of the days an average of 6 shillings. The fares are jolly cheap. For a "set down" within the boundary the charge for two persons between 9 a. m. and 10 p. m. is only sixpence. By time the charges are one and six an hour, with an added sixpence for each succeeding hour. Still the Jarvy does fairly well. Barney, who is no better than the others, took me to his home. It was in Spring Gardens, where there are rows upon rows of neat little red brick cottages, with gardens and stables. They rent at £20 a year. Owning his car as he does, Barney pays no car rent to any one, and if he drives Lawler's mare 'tis more for love than profit. Year in and year out he puts by a bit, for the "childer, God bless 'em," are growing and will have need of education. In his smart little home, with his smart little wife, there are unluckier men than he.

"If 'twere not for the fightin'," says Mrs. O'Hea, "a better man than Barney never pulled a shirt over his head."

Barney, it seems, believes that animosities should be cultivated. Being a good man with his hands and blithe and gay in battle, he colors the week's end with riot.—Vance Thompson in Outing.

## SEA GAZING IN BERMUDA.

Wonderful Life of Crystal Depths as Revealed to the Observer.

It was a little parrot fish that started out so briskly on this summer morning. Whether he was eager to keep an appointment or had been unexpectedly summoned to a distant part of his world one will never know, but one may be certain that the matter was of the greatest consequence so far as the little fish was concerned. Keeping his bright eyes fixed straight ahead, he passed a corner of the reef where the coral was incrustated with mollusks and sea urchins and where a pair of beautiful squirrel fish, deeply engrossed in sentimental affairs, turned to look after him wondering through their enormous eyes. Below in a deep pool a school of spotted trunkfish played heedlessly, while under a projecting plate of staghorn coral a huge grouper waited expectantly, but as the parrot fish, warned of his danger, turned quickly away he gave his attention to a pair of gray snappers—great, quiet, ghostly figures that seemed like two shadows drifting along far down through the green waters.

A few feet farther on and the hurrying parrot fish passed a tall sea fan, around which three dainty butterfly fish, clad brilliantly in yellow, were peering into each nook and corner in their search for small prey, while a sober cowfish, with his two conspicuous horns, looked on sedately. Suddenly the parrot fish turned sharply aside to avoid a spot where the reef was broken by jutting rocks covered with green ulva. Around this a school of bright little zebra striped sergeant majors were sporting, while just to the right an angelfish, whose blue body tipped with gold first attracted the attention of the mariners so many centuries ago, sailed from under a purple gorgonia with a disdainful air.—Metropolitan Magazine.

## Flow of Spirits in Youth.

How unaccountable the flow of spirits in youth. You may throw sticks and dirt into the current and it will only rise the higher. Dam it up you may, but dry it up you may not, for you cannot reach its source. If you stop up this avenue or that, anon it will come gurgling out where you least expected and wash away all fixtures. Youth grasps at happiness as an inalienable right. The tear does no sooner gush than glisten. Who shall say when the tear that sprung of sorrow first sparkled with joy?—H. D. Thoreau in Atlantic.

## The Rose and Its Thorns.

This is the old legend of how the rose came by its thorns: One day in paradise Cupid was flying over a garden of roses. Blossoming there was a beautiful pink rose. Cupid bent to kiss it when a bee hidden in the flower stung him on the lip. Crying with pain, Cupid fled to Venus, his mother, demanding vengeance. Venus, to pacify him, gave him a bow strung with captive bees and set the stem of the rose with stings torn from the poor bees. Three stings now are called thorns.

## His Appearance Under Difficulties.

"Robbed by footpads, were you? It must have made you feel like 30 cents."

"Yes, and I'll bet I looked like 12 o'clock."

"How do you mean?"

"Hands up."—Philadelphia Ledger.

## Corrected.

She—Oh, you men, with your provverbs! You say that knowledge is power, yet—He—Well, isn't it? She—Knowledge! No; it's the way you do your hair.—Brooklyn Life.

The object of art is to crystallize emotion into thought and then fix it in form.—Delsarte.

## MORE TALK OF A COMMERCIAL CLUB

Meeting of Business Men to be Held on Monday Evening for This Purpose

## TO LOOK AFTER CITY'S INTERESTS

The Meeting on Monday is Strictly for Men and Invitations are Cut

Brainerd will probably have a commercial club, something that is generally conceded to be a great need, if the present plans of the more enterprising business men do not miscarry. A meeting has been called for Monday evening at 8 o'clock at Columbian hall and invitations are being extended to the most prominent business men in the city to be present. This will not be an open meeting but will be limited to those who are being requested to be present, as it is believed that the best results can be accomplished in this manner.

These gentlemen who are to meet on Monday evening will make an effort to organize the club and after that the membership will be voted on in the regular manner.

The object of the club will be to look after the interests of the city in all lines, commercial and industrial, and the result cannot but help be of great good, as no well regulated city of the size of Brainerd is without its board of trade or commercial club.

## MAKE WORK EASIER.

Brainerd People are Pleased to Learn How it is Done.

It's pretty hard to attend to duties With a constantly aching back: With annoying urinary disorders. Doan's Kidney Pills make work easier. They cure backache. They cure every kidney ill.

Mrs. Peter Christenson, of 1101 Rosewood St., S. E. Brainerd, Minn., says: "It is over two years ago when Mr. Christenson was doing heavy contracting work that kidney complaint made its appearance in the form of backache and pains over the kidneys. Some times it caused lameness so bad that it required great effort to keep at work, and at best there was a continual annoyance. Doan's Kidney Pills, sold by H. P. Dunn & Co., druggists, were procured on the advice of a friend, and the results of their use was so satisfactory that every symptom of his trouble disappeared. The improvement in his condition has remained unchanged during the time which has elapsed since then."

Sold for 50 cents a box by H. P. Dunn & Co., and all druggists. Foster Millburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name—Doan's—and take no substitute.

We are much pleased for the many kind words from those who have used

**OCCIDENT FLOUR**

and feel sure when you try it you will acknowledge it

THE BEST.

**Weak, Nervous, Worn Out Women**

Bloodless, Irritable, Despondent Women. Subject to All Sorts and Varieties of Nervous Troubles. Find a Positive Cure in

**DR. A. W. CHASE'S NERVE PILLS**

The world is full of women whose daily life is one long struggle against diseases peculiar to their sex—whose days and nights are full of quiet, patient suffering. The head the seat of pain and pressure—the result of nerve depression and physical weakness brought on by uterine or ovarian trouble—the nerves on edge—inclined to laugh or cry at anything—an ever present dragging in the back, hips and limbs—a feeling of utter weariness—lassitude and despondency. To these people Dr. A. W. Chase's Nerve Pills are of incomparable value, having as they do the power to rebuild, to reinvigorate and resupply every organ, every nerve, every muscle with the lost energy, and to insure a complete return to health, strength and vigor again.

Mrs. John Bailey of Jackson St., Penn Yan, N. Y., says:

"I was told that Dr. A. W. Chase's Nerve Pills were a great nerve medicine, and as I needed one badly, I got a box. My nerves were very weak—I lacked ambition and strength and my heart action was very weak. I used the pills as directed and they made my nerves quiet and steady—the heart action strong and regular and the appetite good, my sleep became restful and I feel altogether like another person. I think as a remedy in female complaints as well, they are grand, curing the headaches and heavy, dragging feeling rapidly and easily—this I know from experience, and I am glad to recommend them." 50c a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. Portrait and signature of A. W. Chase, M. D., on every package.

For sale by H. P. Dunn & Co., Central Drug store, Nat'l bank block, Brainerd, Minn.

## PLUNGES INTO FREIGHT TRAIN

Engine of No. 13 Smashes into  
Freight Train No. 59 at  
Sylvan Last Night

NO CASUALTIES ARE REPORTED

But Considerable Damage was  
Done to the Engine of the  
Passenger Train

There was another wreck on the Northern Pacific last night, which so far as fatalities are concerned was a fortunate one, although it is generally admitted that it was a close call for some of the trainmen and the passengers. No. 13, the passenger which goes through Brainerd at 12 o'clock, plunged into No. 59, the short line freight running between here and Staples. The accident occurred at Sylvan.

The wreck occurred about 12:28, the time when the passenger is due at Sylvan. No. 59 left Brainerd about on time last night and they were to go in on the sidetrack at Sylvan as usual to let No. 13 pass. When No. 59 got to Sylvan an extra was met coming east, consequently the extra had to pull in on the sidetrack and did so. No. 59 pulled down the main line and backed in as many cars as it could on the sidetrack. When No. 13 came along, and after it had cleared the east switch of the sidetrack, the extra was let by and pulled for Brainerd. This gave No. 59 a chance to back in on the sidetrack while the passenger was at the depot. It was while backing in on the sidetrack that the passenger came along and plunged into her. Engineer Thomas was on the engine of No. 13. He is said to have stated that he thought the freight had cleared the switch, but as soon as he had gotten up speed and discovered his mistake he dynamited the train and did all in his power to stop it, but it was too late and he struck the freight side on.

The train was not moving very rapidly at the time and but for this fact it is thought that there would have been serious results. As it was the engine did not turn over but jumped and swerved across the track. The tender of the engine went over and rolled into the ditch. The mail car also jumped the track. None of the other cars on the passenger jumped the track.

Several cars of the freight were turned over and demolished and in almost the

twinkling of an eye there was a huge mass of debris piled up, but not a passenger or trainman was injured in the slightest degree.

The wrecker from Staples was dispatched to the scene at once and the work of clearing the track was commenced. All the cars of No. 13, except the mail car which jumped the track, were brought back to Brainerd and another engine was secured and the train ran to Staples by the way of Little Falls and the cut-off. No. 14 was made up there and came back to Brainerd by the same route, reaching here at about 8:20 this morning.

It would seem as though the "hoodoo" was following Engineer Thomas. He was at the throttle when No. 14 ran into the wreck this side of Aitkin some time ago. Conductor Whittle was in charge of No. 13 last night.

There were a large number of passengers on the train and some of them were quite badly shaken up, but none were hurt at all.

### A Life At Stake.

If you but knew the splendid merit of Foley's Honey and Tar you would never be without it. A dose or two will prevent an attack of pneumonia or la grippe. It may save your life. H. P. Dunn & Co. mwf

## PORTLAND'S EXPOSITION

The Lewis and Clark Centennial Fair at Portland, Oregon. Nearing Completion.

Every traveler arriving in the city whose home is in Portland, Ore., insists on talking to acquaintances about the wonders of the Lewis and Clark Centennial Exposition to open in that city June 1st of this year. If half they say is true, it will, in some respects at least, eclipse the great world's exposition just closed in St. Louis. For one thing the exhibition will have a more permanent appearance, the gardens, waterways, and grounds generally having the advantage of natural beauty, different and better than that of any fair ever held in America.

From a gentleman who was in Anaconda from Portland Saturday on a business trip it is learned that everything is now in readiness to receive the exhibits, the agricultural, foreign exhibits and liberal arts buildings are completed. The forestry building, probably the most interesting on the grounds, is nearly completed, the massive timbers which compose the walls and pillars are in place. The mines and metallurgy, festival hall, the machinery, electricity and transportation palace and the Oregon building are nearly completed. The shelter pavilion, located just outside the colonnade entrance, is receiving the finishing touches, and some beautiful modeling work in decorative designs can be seen on this building and the colonnade entrance.

It is understood that the Montana mineral exhibit at St. Louis will be packed and shipped direct to Portland. In addition large shipments will be made from new mining districts and mines which have recently come into prominence. The Moose Lake, Georgetown and Red Lion districts, situated west of this city, will make shipments of minerals to Portland.

The claim is made that the exposition site is the most naturally beautiful ever utilized in any country for such a purpose, and covers 180 acres of land and 220 acres of water. In the park 38 specimens of large native trees and shrubs dot the well-kept lawns. The sunken gardens, where the most beautiful flowers will be planted, with a cascade effect of water running from a fountain in the center, will be one of the prettiest features. In the western part of the grounds will be located the experimental gardens, where many varieties of plants, both useful as market products and beautiful in horticultural effect, will be grown. It is claimed that every effort is being made by the management to add to the natural beauty of the centennial grounds.—Anaconda Standard, Dec. 7, 1904.

## OLD AND NEW ELECTRIC LAMPS

Question as to Whether Old  
Lamps Cause Meters to Register Higher Discussed

BY SCIENTIFIC AMERICAN

Journal of Recognized Authority  
Gives Opinion on Point of  
Local Interest

A good many people in this town and other towns of this section where electric light meters are in use sometimes feel that their meters register higher than they should. When complaint is made on this account it is generally advised that new lamps be installed, the claim being that old lamps consume more electricity than do new ones.

This question has been brought to the attention of the Scientific American, a journal of recognized authority, and in a recent issue answers are given to several questions along this line asked by electricians. These questions and answers will be of interest to Brainerd readers at this time, and they are reproduced herewith:

T. H. D. asks: 1. Given a number of 16 candle power incandescent lights, when first operated they may measure up to 16 candle power, but the light given from them gradually decreases until they give out entirely. What is the cause of the decrease in the amount of light given? A. The cause of the decrease of light from an incandescent lamp as it becomes old is an increase in resistance, which cuts down the current which can flow through the lamp with the voltage of the circuit. This increase is due to a decrease in the size of the filament. By the action of the current the carbon of the filament is driven away to the inner surface of the bulb, and can be seen there as a black deposit. This deposit itself also cuts off light. 2. If these lights are sold at so much per kilowatt, will it cost the consumer more to get the same illumination (if possible) from them after having been used, say, three months, than it did when they were first put to work? If so why? A. Yes; since the current must be brought up by increasing the voltage of the circuit, the watts consumed are increased. After a time it is possible to bring such a lamp up to full candle power. 3. If the same amount of current is supplied constantly to the meter, will that instrument register a greater or lesser quantity of electricity consumed as the age of the incandescent lights increases? A. If the same amount of current at the same voltage is supplied to the wattmeter, it will register the same number of kilowatts independent of the condition of the lamps. The resistance of the lamps increases with age, and it becomes very wasteful to use them after a certain time, since the light decreases more rapidly than the resistance increases. A reasonable limit for life of a lamp is 500 hours.

### In Dire Distress.

Misery and torture without parallel was the fate of Mr. Chas. Weaver, of Darlington, Wis. He writes: "After taking three boxes of Gloria Tonic my rheumatism entirely disappeared. Previous to taking this remedy I could not sleep nights." Sold by H. P. Dunn & Co. mwf

### Purchase Fixtures

J. H. Kartock and Samuel Heller were in the city yesterday arranging with Mike Peterson for the new fixtures for the saloon in the Fitger building. Mr. Peterson will have the store room next to the corner facing on Laurel street, and expects to be started in business in a short time now.

Puts light in the eye, tints the cheek with nature's bloom, loosens the tension of life, brushes the cobwebs from the brain, that's what Hollister's Rocky Mountain Tea will do. 35 cents tea or tablets. H. P. Dunn & Co.

### Miracle Block For Rent.

The store rooms in the New Miracle Block are now ready for rent, either as a double store or singly. Good location on best street. Call on H. Turcotte at the building. 187tf

### Virtue's Quick Reward.

"Nothing ever better illustrated to me," remarked the doctor, "the old adage, 'Virtue is its own reward,' than an experience I had the other day. Called for the first time to a patient who was desperately ill in addition to being penniless, I gave her \$5 with which to purchase the necessities of life. The next morning I received a note from her not to call again. Later I learned she had called in a homeopathic physician, to whom she paid a fee of \$2, and with the remainder of my charitable contribution she paid a monthly installment on a phonograph."—New York Press.

Perfect womanhood depends on perfect health. Nature's rarest gift of physical beauty comes to all who use Hollister's Rocky Mountain Tea. Bright eyes and red cheeks follow its use. 35 cents, tea or tablets. H. P. Dunn & Co. Misses Chilton, dressmakers, Columbian block. 193tf

## AS GONE TO OTHER PARTS

Man Who Was Going to Start a Dowie

Colony Runs Out of Pills--Gigantic

Enterprise is Abandoned

The man Heinze who bought up options on thousand of acres of land at Heinze Spur on the M. & I. for the purpose as he expressed it, of starting a Dowie colony, erect factories, schools, churches and in fact create a new city, has abandoned his project and has gone to other fields. It has been thought all along that Heinze had taken a few too many pills and that someone would him up. He certainly had the pleasure of working up quite a sentiment around through Beltrami county.

Fatal kidney and bladder troubles can always be prevented by the use of Foley's Kidney Cure. H. P. Dunn & Co. mwf

## ELKS' DANCE TONIGHT

Will Be Big Social Event of the Season--

Decorating Committee Has Been Busy

Throughout the Day.

The annual ball given by the members of Brainerd Lodge, B. P. O. E., will be tonight at Gardner hall and the event will be one of the most important in social circles this winter. A large number of invitations have been sent out and there will doubtless be a very large attendance. The decorating committee has been busy throughout the day with the result that the hall looks very pretty. Graham's full orchestra will furnish the music.

### All Mothers Know

the great danger of babies in bad fits of coughing. Gloria Lung Balsam will stop it almost instantly, so don't be without it. Sold by H. P. Dunn & Co. mwf

Sheet music, 7 pieces for \$1.00 at the Palace news depot, opposite P. O. 197tf

A little repairing done in time and at the right place will save your machine if you leave your orders at the right place. Singer Store, Pearce block, Laurel St. Tel. 190. 191tf

## CONSTRUCTION TALK

Said that an Engineer for the M. & I.

Will go North in a Short Time to do

Some Surveying

There is some talk that the M. & I. will do quite a little work this summer in the construction line and that an engineer and his crew will go north in a few days to survey some proposed lines. The company did not do much work last year, due largely as General Manager Gemmell said to the fact that the general condition of railroad business throughout the country was not such that it would warrant any great amount of expenditure on improvements.

The prevention of consumption is entirely a question of commencing the proper treatment in time. Nothing is so well adapted to ward off fatal lung troubles as Foley's Honey and Tar. H. P. Dunn & Co. mwf

### What the Hand Symbolizes.

Look where we will, we find the hand in time and history, working, building, inventing, bringing civilization out of barbarism. The hand symbolizes power and the excellence of work. The mechanic's hand, that minister of elemental forces, the hand that hews, saws, cuts, builds, is useful in the world equally with the delicate hand that paints a wild flower or molds a Grecian urn or the hand of a statesman that writes a law. The eye cannot say to the hand, "I have no need of thee." Blessed be the hand! Three blessed be the hands that work!—Helen Keller in Century.

Foley's Kidney Cure makes the kidneys, bladder right. Contains nothing injurious. H. P. Dunn Co. mwf

Take Hollister's Rocky Mountain Tea. See it exterminate the poison, feel it revitalize the blood and bring back that happy joyous feeling of bygone days. 35 cents, tea or tablets. H. P. Dunn & Co.

Store your households good with D. M. Clark & Co.

## BITS FROM THE AUTHORS.

Men succeed quicker without women—especially literary men.—Frank Stanton.

Treachery kills a woman's love, while jealousy will keep it burning.—John Oliver Hobbes.

Each of us is born into a world full of duties and responsibilities which we can only discharge by the strenuous and unremitting use of every waking hour.—W. T. Stead.

The word "society" once meant the whole human family. Now it has come to signify merely those whose receptions and dinners are described in the daily papers.—James L. Ford.

Marriage is the finishing school of life. It puts the final touch to our education, rewards us with happiness if we learn its lessons, punishes us with misery if we fail to profit.—Sarah Grand.

In spite of all the romances, men and women are amazingly indiscriminate in their attachment. They select their wives and husbands far less carefully than they select their cashiers and cooks.—G. Bernard Shaw.

## FROM STORM EFFECTS

NEW YORK CITY AND VICINITY

REPORTED TO BE SLOWLY

RECOVERING.

New York, Jan. 27.—New York is now recovering from the effects of Wednesday's storm, which so effectively put a stop to traffic and tied up some lines of business. Although Thursday was bitter cold, 15,000 men were sent out to remove the snow from the leading thoroughfares and, aided by the men of the surface car roads, many avenues of travel are now open. Cars are running on many of the principal lines, the railroads are sending out trains, ferry boats are running on schedule, and milk, coal and food supplies have begun to reach the city.

Over 250 shovellers were treated at hospitals below Fourteenth street for frost bites and scores of others were attended at uptown institutions and by physicians.

Suburban railroad traffic gradually resumed normal conditions late in the day, but through trains on most roads were hours late.

Over 500 men and women spent Wednesday night in the passenger station in Long Island City, and 125 persons slept in the station in Jamaica, L. I. Many others were compelled to remain all night in trains and trolleys stalled in deep drifts on roads around New York.

The embargo on shipping was lifted with the advent of clear weather and the large fleet of delayed liners reached port, ice covered. All report tempestuous voyages and much suffering among their crews. The steam lighter Clarence, which left Bayonne, N. J., for Brooklyn with seven men aboard, has not been heard from. A vessel is reported sunk off Robbins' reef and it is feared it may be the Clarence.

The cold weather, which has been general along the Atlantic coast, appears to be giving way.

## FIGHTING IN SAN DOMINGO.

Cruiser Dixie Will Take American Marines to That City.

Panama, Jan. 27.—Considerable excitement has been created on the Isthmus by the receipt of orders by the cruiser Dixie to proceed at once to San Domingo. It was reported fighting has broken out in the streets and become so general that the assistance of the 500 marines quartered upon Empire hill is considered absolutely necessary by the United States.

## THE BEGGAR TRUST.

A Scheme That For a Time Was a Success In New York.

Several years ago a one legged youth named Kerpton, who had left a comfortable home to engage deliberately in begging, conceived the idea of organizing a community of interest among panhandlers in the Park row district, in New York. He picked out strategic spots throughout the city and selected a man to beg in each. These men were always particularly well adapted to their posts—a blink (blind man) here, a crust thrower there, a maimed youth somewhere else. In order that the beggars might not be molested by the police a lookout was appointed for each, and in order that the syndicate's interests might be conserved Kerpton employed roundsmen to observe how faithfully the beggars attended to business and to collect hourly the earnings of each. In case of arrest each member of the band was assured of legal representation, to be paid for out of the earnings of the pool.

The scheme thrived for many months, and at one time there were thirty men in the combination, which became a close corporation of profit and power. There is no knowing to what extent it might have expanded nor how influential it might have become at last had not the nature of the organization given it undue prominence and caused it to fall directly under the ban of the mendicant squad. One by one the members were captured and sent to the island, and in the end the gang was broken up.—Theodore Waters in Everybody's Magazine.

## HERE LOOKING IT OVER

S. Winter and M. Winter, of Chamberlain, S. D., Are in the City to See

the New Ransford Hotel

Two brothers, S. and M. Winter, of Chamberlain, S. D., are in the city to interview R. R. Wise regarding his new hotel and with the hope that they may be able to lease the property. They are old experienced hotel men and are very anxious to make some kind of a deal. Mr. Wise has not closed a deal for the lease of the building but will probably do so now within the next ten days.

THE DAILY DISPATCH brought to your door for only 40 cents per month.

## PLUNGES INTO FREIGHT TRAIN

Engine of No. 13 Smashes into  
Freight Train No. 59 at  
Sylvan Last Night

NO CASUALTIES ARE REPORTED

But Considerable Damage was  
Done to the Engine of the  
Passenger Train

There was another wreck on the Northern Pacific last night, which so far as fatalities are concerned was a fortunate one, although it is generally admitted that it was a close call for some of the trainmen and the passengers. No. 13, the passenger which goes through Brainerd at 12 o'clock, plunged into No. 59 the short line freight running between here and Staples. The accident occurred at Sylvan.

The wreck occurred about 12:28, the time when the passenger is due at Sylvan. No. 59 left Brainerd about on time last night and they were to go in on the sidetrack at Sylvan as usual to let No. 13 pass. When No. 59 got to Sylvan an extra was met coming east, consequently the extra had to pull in on the sidetrack and did so. No. 59 pulled down the main line and backed in as many cars as it could on the sidetrack. When No. 13 came along, and after it had cleared the east switch of the sidetrack, the extra was let by and pulled for Brainerd. This gave No. 59 a chance to back in on the sidetrack while the passenger was at the depot. It was while backing in on the sidetrack that the passenger came along and plunged into her. Engineer Thomas was on the engine of No. 13. He is said to have stated that he thought the freight had cleared the switch, but as soon as he had gotten up speed and discovered his mistake he dynamited the train and did all in his power to stop it, but it was too late and he struck the freight side on.

The train was not moving very rapidly at the time and but for this fact it is thought that there would have been serious results. As it was the engine did not turn over but jumped and swerved across the track. The tender of the engine went over and rolled into the ditch. The mail car also jumped the track. None of the other cars on the passenger jumped the track.

Several cars of the freight were turned over and demolished and in almost the

twinkling of an eye there was a huge mass of debris piled up, but not a passenger or trainman was injured in the slightest degree.

The wrecker from Staples was dispatched to the scene at once and the work of clearing the track was commenced. All the cars of No. 13, except the mail car which jumped the track, were brought back to Brainerd and another engine was secured and the train ran to Staples by the way of Little Falls and the cut-off. No. 14 was made up there and came back to Brainerd by the same route, reaching here at about 8:20 this morning.

It would seem as though the "hoodoo" was following Engineer Thomas. He was at the throttle when No. 14 ran into the wreck this side of Aitkin some time ago. Conductor Whittle was in charge of No. 13 last night.

There were a large number of passengers on the train and some of them were quite badly shaken up, but none were hurt at all.

### A Life At Stake.

If you but knew the splendid merit of Foley's Honey and Tar you would never be without it. A dose or two will prevent an attack of pneumonia or la grippe. It may save your life. H. P. Dunn & Co. mwf

## PORTLAND'S EXPOSITION

The Lewis and Clark Centennial Fair at Portland, Oregon. Nearing Completion.

Every traveler arriving in the city whose home is in Portland, Ore., insists on talking to acquaintances about the wonders of the Lewis and Clark Centennial Exposition to open in that city June 1st of this year. If half they say is true, it will, in some respects at least, eclipse the great world's exposition just closed in St. Louis. For one thing the exhibition will have a more permanent appearance, the gardens, waterways, and grounds generally having the advantage of natural beauty, different and better than that of any fair ever held in America.

From a gentleman who was in Anaconda from Portland Saturday on a business trip it is learned that everything is now in readiness to receive the exhibits, the agricultural, foreign exhibits and liberal arts buildings are completed. The forestry building, probably the most interesting on the grounds, is nearly completed, the massive timbers which compose the walls and pillars are in place. The mines and metallurgy, festival hall, the machinery, electricity and transportation palace and the Oregon building are nearly completed. The shelter pavilion, located just outside the colonnade entrance, is receiving the finishing touches, and some beautiful modeling work in decorative designs can be seen on this building and the colonnade entrance.

It is understood that the Montana mineral exhibit at St. Louis will be packed and shipped direct to Portland. In addition large shipments will be made from new mining districts and mines which have recently come into prominence. The Moose Lake, Georgetown and Red Lion districts, situated west of this city, will make shipments of minerals to Portland.

The claim is made that the exposition site is the most naturally beautiful ever utilized in any country for such a purpose, and covers 180 acres of land and 220 acres of water. In the park 38 specimens of large native trees and shrubs dot the well-kept lawns. The sunken gardens, where the most beautiful flowers will be planted, with a cascade effect of water running from a fountain in the center, will be one of the prettiest features. In the western part of the grounds will be located the experimental gardens, where many varieties of plants, both useful as market products and beautiful in horticultural effect, will be grown. It is claimed that every effort is being made by the management to add to the natural beauty of the centennial grounds.—Anaconda Standard, Dec. 7, 1904.

## OLD AND NEW ELECTRIC LAMPS

Question as to Whether Old  
Lamps Cause Meters to Register Higher Discussed

BY SCIENTIFIC AMERICAN

Journal of Recognized Authority  
Gives Opinion on Point of  
Local Interest

A good many people in this town and other towns of this section where electric light meters are in use sometimes feel that their meters register higher than they should. When complaint is made on this account it is generally advised that new lamps be installed, the claim being that old lamps consume more electricity than do new ones.

This question has been brought to the attention of the Scientific American, a journal of recognized authority, and in a recent issue answers are given to several questions along this line asked by electricians. These questions and answers will be of interest to Brainerd readers at this time, and they are reproduced herewith:

T. H. D. asks: 1. Given a number of 16 candle power incandescent lights, when first operated they may measure up to 16 candle power, but the light given from them gradually decreases until they give out entirely. What is the cause of the decrease in the amount of light given? A. The cause of the decrease of light from an incandescent lamp as it becomes old is an increase in resistance, which cuts down the current which can flow through the lamp with the voltage of the circuit. This increase is due to a decrease in the size of the filament. By the action of the current the carbon of the filament is driven away to the inner surface of the bulb, and can be seen there as a black deposit. This deposit itself also cuts off light. 2. If these lights are sold at so much per kilowatt, will it cost the consumer more to get the same illumination (if possible) from them after having been used, say, three months, than it did when they were first put to work? If so why? A. Yes; since the current must be brought up by increasing the voltage of the circuit, the watts consumed are increased. After a time it is possible to bring such a lamp up to full candle power. 3. If the same amount of current is supplied constantly to the meter, will that instrument register a greater or lesser quantity of electricity consumed as the age of the incandescent lights increases? A. If the same amount of current at the same voltage is supplied to the wattmeter, it will register the same number of kilowatts independent of the condition of the lamps. The resistance of the lamps increases with age, and it becomes very wasteful to use them after a certain time, since the light decreases more rapidly than the resistance increases. A reasonable limit for life of a lamp is 500 hours.

### In Dire Distress.

Misery and torture without parallel was the fate of Mr. Chas. Weaver, of Darlington, Wis. He writes: "After taking three boxes of Gloria Tonic my rheumatism entirely disappeared. Previous to taking this remedy I could not sleep nights." Sold by H. P. Dunn & Co. mwf

### Purchase Fixtures

J. H. Kartock and Samuel Heller were in the city yesterday arranging with Mike Peterson for the new fixtures for the saloon in the Fitzer building. Mr. Peterson will have the store room next to the corner facing on Laurel street, and expects to be started in business in a short time now.

Puts light in the eye, tints the cheek with nature's bloom, loosens the tension of life, brushes the cobwebs from the brain, that's what Hollister's Rocky Mountain Tea will do. 35 cents tea or tablets. H. P. Dunn & Co.

### Miracle Block For Rent.

The store rooms in the New Miracle Block are now ready for rent, either as a double store or singly. Good location on best street. Call on H. Turcotte at the building. 187tf

### Virtue's Quick Reward.

"Nothing ever better illustrated to me," remarked the doctor, "the old adage, 'Virtue is its own reward,' than an experience I had the other day. Called for the first time to a patient who was desperately ill in addition to being penniless, I gave her \$5 with which to purchase the necessities of life. The next morning I received a note from her not to call again. Later I learned she had called in a homeopathic physician, to whom she paid a fee of \$2, and with the remainder of my charitable contribution she paid a monthly installment on a phonograph."—New York Press.

Perfect womanhood depends on perfect health. Nature's rarest gift of physical beauty comes to all who use Hollister's Rocky Mountain Tea. Bright eyes and red cheeks follow its use. 35 cents, tea or tablets. H. P. Dunn & Co.

Misses Chilton, dressmakers, Columbian block. 193tf

## HAS GONE TO OTHER PARTS

Man Who Was Going to Start a Dowie

Colony Runs Out of Pills—Gigantic Enterprise is Abandoned

The man Heinze who bought up options on thousand of acres of land at Heinze Spur on the M. & I. for the purpose as he expressed it, of starting a Dowie colony, erect factories, schools, churches and in fact create a new city, has abandoned his project and has gone to other fields. It has been thought all along that Heinze had taken a few too many pills and that someone woke him up. He certainly had the pleasure of working up quite a sentiment around through Beltrami county.

Fatal kidney and bladder troubles can always be prevented by the use of Foley's Kidney Cure. H. P. Dunn & Co. mwf

## ELKS' DANCE TONIGHT

Will Be Big Social Event of the Season--  
Decorating Committee Has Been Busy  
Throughout the Day.

The annual ball given by the members of Brainerd Lodge, B. P. O. E., will be tonight at Gardner hall and the event will be one of the most important in social circles this winter. A large number of invitations have been sent out and there will doubtless be a very large attendance. The decorating committee has been busy throughout the day with the result that the hall looks very pretty. Graham's full orchestra will furnish the music.

### All Mothers Know

the great danger of babies in bad fits of coughing. Gloria Lung Balm will stop it almost instantly, so don't be without it. Sold by H. P. Dunn & Co. mwf

Sheet music, 7 pieces for \$1.00 at the Palace news depot, opposite P. O. 197tf

A little repairing done in time and at the right place will save your machine if you leave your orders at the right place. Singer Store, Pearce block, Laurel St. Tel. 190. 191tf

## CONSTRUCTION TALK

Said that an Engineer for the M. & I.  
Will go North in a Short Time to do  
Some Surveying

There is some talk that the M. & I. will do quite a little work this summer in the construction line and that an engineer and his crew will go north in a few days to survey some proposed lines. The company did not do much work last year, due largely as General Manager Gemmell said to the fact that the general condition of railroad business throughout the country was not such that it would warrant any great amount of expenditure on improvements.

The prevention of consumption is entirely a question of commencing the proper treatment in time. Nothing is so well adapted to ward off fatal lung troubles as Foley's Honey and Tar. H. P. Dunn & Co. mwf

## PLUNGES INTO FREIGHT TRAIN

Engine of No. 13 Smashes into  
Freight Train No. 59 at  
Sylvan Last Night

### NO CASUALTIES ARE REPORTED

But Considerable Damage was  
Done to the Engine of the  
Passenger Train

There was another wreck on the Northern Pacific last night, which so far as fatalities are concerned was a fortunate one, although it is generally admitted that it was a close call for some of the trainmen and the passengers. No. 13, the passenger which goes through Brainerd at 12 o'clock, plunged into No. 59 the short line freight running between here and Staples. The accident occurred at Sylvan.

The wreck occurred about 12:28, the time when the passenger is due at Sylvan. No. 59 left Brainerd about on time last night and they were to go in on the sidetrack at Sylvan as usual to let No. 13 pass. When No. 59 got to Sylvan an extra was met coming east, consequently the extra had to pull in on the sidetrack and did so. No. 59 pulled down the main line and backed in as many cars as it could on the sidetrack. When No. 13 came along, and after it had cleared the east switch of the sidetrack, the extra was let by and pulled for Brainerd. This gave No. 59 a chance to back in on the sidetrack while the passenger was at the depot. It was while backing in on the sidetrack that the passenger came along and plunged into her. Engineer Thomas was on the engine of No. 13. He is said to have stated that he thought the freight had cleared the switch, but as soon as he had gotten up speed and discovered his mistake he dynamited the train and did all in his power to stop it, but it was too late and he struck the freight side on.

The train was not moving very rapidly at the time and but for this fact it is thought that there would have been serious results. As it was the engine did not turn over but jumped and swerved across the track. The tender of the engine went over and rolled into the ditch. The mail car also jumped the track. None of the other cars on the passenger jumped the track.

Several cars of the freight were turned over and demolished and in almost the

twinkling of an eye there was a huge mass of debris piled up, but not a passenger or trainman was injured in the slightest degree.

The wrecker from Staples was dispatched to the scene at once and the work of clearing the track was commenced. All the cars of No. 13, except the mail car which jumped the track, were brought back to Brainerd and another engine was secured and the train ran to Staples by the way of Little Falls and the cut-off. No. 14 was made up there and came back to Brainerd by the same route, reaching here at about 8:20 this morning.

It would seem as though the "hoodoo" was following Engineer Thomas. He was at the throttle when No. 14 ran into the wreck this side of Aitkin some time ago. Conductor Whittle was in charge of No. 13 last night.

There were a large number of passengers on the train and some of them were quite badly shaken up, but none were hurt at all.

### A Life At Stake.

If you but knew the splendid merit of Foley's Honey and Tar you would never be without it. A dose or two will prevent an attack of pneumonia or la grippe. It may save your life. H. P. Dunn & Co. mwfw

### PORTLAND'S EXPOSITION

The Lewis and Clark Centennial Fair at Portland, Oregon. Nearing Completion.

Every traveler arriving in the city whose home is in Portland, Ore., insists on talking to acquaintances about the wonders of the Lewis and Clark Centennial Exposition to open in that city June 1st of this year. If half they say is true, it will, in some respects at least, eclipse the great world's exposition just closed in St. Louis. For one thing the exhibition will have a more permanent appearance, the gardens, waterways, and grounds generally having the advantage of natural beauty, different and better than that of any fair ever held in America.

From a gentleman who was in Anacosta from Portland Saturday on a business trip it is learned that everything is now in readiness to receive the exhibits, the agricultural, foreign exhibits and liberal arts buildings are completed. The forestry building, probably the most interesting on the grounds, is nearly completed, the massive timbers which compose the walls and pillars are in place. The mines and metallurgy, festival hall, the machinery, electricity and transportation palace and the Oregon building are nearly completed. The shelter pavilion, located just outside the colonnade entrance, is receiving the finishing touches, and some beautiful modeling work in decorative designs can be seen on this building and the colonnade entrance.

It is understood that the Montana mineral exhibit at St. Louis will be packed and shipped direct to Portland. In addition large shipments will be made from new mining districts and mines which have recently come into prominence. The Moose Lake, Georgetown and Red Lion districts, situated west of this city, will make shipments of minerals to Portland.

The claim is made that the exposition site is the most naturally beautiful ever utilized in any country for such a purpose, and covers 180 acres of land and 220 acres of water. In the park 38 specimens of large native trees and shrubs dot the well-kept lawns. The sunken gardens, where the most beautiful flowers will be planted, with a cascade effect of water running from a fountain in the center, will be one of the prettiest features. In the western part of the grounds will be located the experimental gardens, where many varieties of plants, both useful as market products and beautiful in horticultural effect, will be grown. It is claimed that every effort is being made by the management to add to the natural beauty of the centennial grounds.—Anaconda Standard, Dec. 7, 1904.

## OLD AND NEW ELECTRIC LAMPS

Question as to Whether Old  
Lamps Cause Meters to Register Higher Discussed

BY SCIENTIFIC AMERICAN

Journal of Recognized Authority  
Gives Opinion on Point of  
Local Interest

A good many people in this town and other towns of this section where electric light meters are in use sometimes feel that their meters register higher than they should. When complaint is made on this account it is generally advised that new lamps be installed, the claim being that old lamps consume more electricity than do new ones.

This question has been brought to the attention of the Scientific American, a journal of recognized authority, and in a recent issue answers are given to several questions along this line asked by electricians. These questions and answers will be of interest to Brainerd readers at this time, and they are reproduced herewith:

T. H. D. asks: 1. Given a number of 16 candle power incandescent lights, when first operated they may measure up to 16 candle power, but the light given from them gradually decreases until they give out entirely. What is the cause of the decrease in the amount of light given? A. The cause of the decrease of light from an incandescent lamp as it becomes old is an increase in resistance, which cuts down the current which can flow through the lamp with the voltage of the circuit. This increase is due to a decrease in the size of the filament. By the action of the current the carbon of the filament is driven away to the inner surface of the bulb, and can be seen there as a black deposit. This deposit itself also cuts off light. 2. If these lights are sold at so much per kilowatt, will it cost the consumer more to get the same illumination (if possible) from them after having been used, say, three months, than it did when they were first put to work? If so why? A. Yes; since the current must be brought up by increasing the voltage of the circuit, the watts consumed are increased. After a time it is possible to bring such a lamp up to full candle power. 3. If the same amount of current is supplied constantly to the meter, will that instrument register a greater or lesser quantity of electricity consumed as the age of the incandescent lights increases? A. If the same amount of current at the same voltage is supplied to the wattmeter, it will register the same number of kilowatts independent of the condition of the lamps. The resistance of the lamps increases with age, and it becomes very wasteful to use them after a certain time, since the light decreases more rapidly than the resistance increases. A reasonable limit for life of a lamp is 500 hours.

### In Dire Distress.

Misery and torture without parallel was the fate of Mr. Chas. Weaver, of Darlington, Wis. He writes: "After taking three boxes of Gloria Tonic my rheumatism entirely disappeared. Previous to taking this remedy I could not sleep nights." Sold by H. P. Dunn & Co. mwfw

### Purchase Fixtures

J. H. Kartock and Samuel Heller were in the city yesterday arranging with Mike Peterson for the new fixtures for the saloon in the Fitzer building. Mr. Peterson will have the store room next to the corner facing on Laurel street, and expects to be started in business in a short time now.

Puts light in the eye, tints the cheek with nature's bloom, loosens the tension of life, brushes the cobwebs from the brain, that's what Hollister's Rocky Mountain Tea will do. 35 cents tea or tablets. H. P. Dunn & Co.

### Miracle Block For Rent.

The store rooms in the New Miracle Block are now ready for rent, either as a double store or singly. Good location on best street. Call on H. Turcotte at the building. 187tf

### Virtue's Quick Reward.

"Nothing ever better illustrated to me," remarked the doctor, "the old adage, 'Virtue is its own reward,' than an experience I had the other day. Called for the first time to a patient who was desperately ill in addition to being penniless, I gave her \$5 with which to purchase the necessities of life. The next morning I received a note from her not to call again. Later I learned she had called in a homeopathic physician, to whom she paid a fee of \$2, and with the remainder of my charitable contribution she paid a monthly installment on a phonograph."—New York Press.

Perfect womanhood depends on perfect health. Nature's rarest gift of physical beauty comes to all who use Hollister's Rocky Mountain Tea. Bright eyes and red cheeks follow its use. 35 cents, tea or tablets. H. P. Dunn & Co.

Misses Chilton, dressmakers, Columbian block. 193tf

## HAS GONE TO OTHER PARTS

Man Who Was Going to Start a Dowie

Colony Runs Out of Pills—Gigantic Enterprise is Abandoned

The man Heinze who bought up options on thousands of acres of land at Heinze Spur on the M. & I. for the purpose as he expressed it, of starting a Dowie colony, erect factories, schools, churches and in fact create a new city, has abandoned his project and has gone to other fields. It has been thought all along that Heinze had taken a few too many pills and that someone woke him up. He certainly had the pleasure of working up quite a sentiment around through Beltrami county.

Fatal kidney and bladder troubles can always be prevented by the use of Foley's Kidney Cure. H. P. Dunn & Co. mwfw

### ELKS' DANCE TONIGHT

Will Be Big Social Event of the Season—Decorating Committee Has Been Busy Throughout the Day.

The annual ball given by the members of Brainerd Lodge, B. P. O. E., will be tonight at Gardner hall and the event will be one of the most important in social circles this winter. A large number of invitations have been sent out and there will doubtless be a very large attendance. The decorating committee has been busy throughout the day with the result that the hall looks very pretty. Graham's full orchestra will furnish the music.

### All Mothers Know

the great danger of babies in bad fits of coughing. Gloria Lung Balsam will stop it almost instantly, so don't be without it. Sold by H. P. Dunn & Co. mwfw

Sheet music, 7 pieces for \$1.00 at the Palace news depot, opposite P. O. 197tf

A little repairing done in time and at the right place will save your machine if you leave your orders at the right place. Singer Store, Pearce block, Laurel St. Tel. 190. 1916f

### CONSTRUCTION TALK

Said that an Engineer for the M. & I. Will go North in a Short Time to do Some Surveying

There is some talk that the M. & I. will do quite a little work this summer in the construction line and that an engineer and his crew will go north in a few days to survey some proposed lines. The company did not do much work last year, due largely as General Manager Gemmell said to the fact that the general condition of railroad business throughout the country was not such that it would warrant any great amount of expenditure on improvements.

The prevention of consumption is entirely a question of commencing the proper treatment in time. Nothing is so well adapted to ward off fatal lung troubles as Foley's Honey and Tar. H. P. Dunn & Co. mwfw

### What the Hand Symbolizes.

Look where we will, we find the hand in time and history, working, building, inventing, bringing civilization out of barbarism. The hand symbolizes power and the excellence of work. The mechanic's hand, that minister of elemental forces, the hand that hews, saws, cuts, builds, is useful in the world equally with the delicate hand that paints a wild flower or molds a Grecian urn or the hand of a statesman that writes a law. The eye cannot say to the hand, "I have no need of thee." Blessed be the hand! Thrice blessed be the hands that work!—Helen Keller in Century.

Foley's Kidney Cure makes the kidneys, bladder right. Contains nothing injurious. H. P. Dunn Co. mwfw

Take Hollister's Rocky Mountain Tea. See it exterminate the poison, feel it revitalize the blood and bring back that happy joyous feeling of bygone days. 35 cents, tea or tablets. H. P. Dunn & Co.

Store your households good with D. M. Clark & Co.

### BITS FROM THE AUTHORS.

Men succeed quicker without women—especially literary men.—Frank Stanton.

Treachery kills a woman's love, while jealousy will keep it burning.—John Oliver Hobbes.

Each of us is born into a world full of duties and responsibilities which we can only discharge by the strenuous and unremitting use of every waking hour.—W. T. Stead.

The word "society" once meant the whole human family. Now it has come to signify merely those whose receptions and dinners are described in the daily papers.—James L. Ford.

Marriage is the finishing school of life. It puts the final touch to our education, rewards us with happiness if we learn its lessons, punishes us with misery if we fail to profit.—Sarah Grand.

In spite of all the romances, men and women are amazingly indiscriminate in their attachment. They select their wives and husbands far less carefully than they select their cashiers and cooks.—G. Bernard Shaw.

## FROM STORM EFFECTS

NEW YORK CITY AND VICINITY

REPORTED TO BE SLOWLY  
RECOVERING.

New York, Jan. 27.—New York is now recovering from the effects of Wednesday's storm, which so effectively put a stop to traffic and tied up some lines of business. Although Thursday was bitter cold, 15,000 men were sent out to remove the snow from the leading thoroughfares and, aided by the men of the surface car roads, many avenues of travel are now open. Cars are running on many of the principal lines, the railroads are sending out trains, ferry boats are running on schedule, and milk, coal and food supplies have begun to reach the city.

Over 250 shovellers were treated at hospitals below Fourteenth street for frost bites and scores of others were attended at uptown institutions and by physicians.

Suburban railroad traffic gradually resumed normal conditions late in the day, but through trains on most roads were hours late.

Over 500 men and women spent Wednesday night in the passenger station in Long Island City, and 125 persons slept in the station in Jamaica, L. I. Many others were compelled to remain all night in trains and trolleys stalled in deep drifts on roads around New York.

The embargo on shipping was lifted with the advent of clear weather and the large fleet of delayed liners reached port, ice covered. All report tempestuous voyages and much suffering among their crews. The steam lighter Clarence, which left Bayonne, N. J., for Brooklyn with seven men aboard, has not been heard from. A vessel is reported sunk off Robbins' reef and it is feared it may be the Clarence.

The cold weather, which has been general along the Atlantic coast, appears to be giving way.

### FIGHTING IN SAN DOMINGO.

Cruiser Dixie Will Take American Marines to That City.

Panama, Jan. 27.—Considerable excitement has been created on the Isthmus by the receipt of orders by the cruiser Dixie to proceed at once to San Domingo. It was reported fighting has broken out in the streets and become so general that the assistance of the 500 marines quartered upon Empire hill is considered absolutely necessary by the United States.

### THE BEGGAR TRUST.

A Scheme That For a Time Was a Success in New York.

Several years ago a one legged youth named Kerapton, who had left a comfortable home to engage deliberately in begging, conceived the idea of organizing a community of interest among panhandlers in the Park row district, in New York. He picked out strategic spots throughout the city and selected a man to beg in each. These men were always particularly well adapted to their posts—a blink (blind man) here, a crust thrower there, a maimed youth somewhere else. In order that the beggars might not be molested by the police a lookout was appointed for each, and in order that the syndicate's interests might be conserved Kerapton employed roundsmen to observe how faithfully the beggars attended to business and to collect hourly the earnings of each. In case of arrest each member of the band was assured of legal representation, to be paid for out of the earnings of the pool.

The scheme thrived for many months, and at one time there were thirty men in the combination, which became a close corporation of profit and power. There is no knowing to what extent it might have expanded nor how influential it might have become at last had not the nature of the organization given it undue prominence and caused it to fall directly under the ban of the mendicant squad. One by one the members were captured and sent to the island, and in the end the gang was broken up.—Theodore Waters in Everybody's Magazine.

## HERE LOOKING IT OVER

S. Winter and M. Winter, of Chamberlain, S. D., Are in the City to See

the New Ransford Hotel

Two brothers, S. and M. Winter, of Chamberlain, S. D., are in the city to interview R. R. Wise regarding his new hotel and with the hope that they may be able to lease the property. They are old experienced hotel men and are very anxious to make some kind of a deal. Mr. Wise has not closed a deal for the lease of the building but will probably do so now within the next ten days.

THE DAILY DISPATCH brought to your door for only 40 cents per month.

## Humors Cured

with **Harbin Soap**, **SkinHealth** (ointment) and **SkinHealth Tablets**. A positive and speedy cure for every itching, burning, scaly, bleeding, crusty, pimply and blotchy humor, with loss of hair. Produces clear, brilliant, healthy skin and pure, rich, red blood.

## WHOLE FAMILY SLAIN

### BRUTAL MURDERS IN FLORIDA SUPPOSED TO HAVE BEEN DONE BY NEGROES.

### SIX PERSONS WERE KILLED

### HUSBAND AND WIFE AND THEIR FOUR CHILDREN ALL FOUND IN RUINED HOME.

Tampa, Fla., Jan. 27.—The little farming community of Wauchula, in Polk county, was plunged into excitement Thursday morning at the discovery of a crime equalling in horror the tragedy at Statesboro, Ga., last year, who moved there last October from Blount county, Ala., was found in ashes and in the smoldering ruins were found the bodies of Kirby, his wife and four children, ranging in age from a boy of twelve to an infant of one year.

The whole neighborhood soon reached the scene and an investigation was made which resulted in the conclusion that the entire family had been murdered and a torch applied to the dwelling. The skulls of each of the victims, except that of Mrs. Kirby, had been crushed in by some heavy weapon, and each with the exception of the woman had evidently been murdered as they slept. A hammer was the only weapon found in the ruins which could have inflicted the wounds. A coroner's jury was empaneled and after making an examination of the premises rendered a verdict that the family came to death "by fire or some other means unknown."

The general theory is that a party of negroes committed the crime, although no traces of the perpetrators can be found.

### TEMPERATURES MODERATE.

### Cold Spell Over the West and Northwest Is Ended.

Chicago, Jan. 27.—Temperatures have generally moderated throughout the West and Northwest, not a single city reporting a temperature as low as zero. Up in the British Northwest, the mercury ranged from 6 to 12 above. The temperature Thursday night in the leading cities of the West was as follows:

Chicago 18, Cincinnati 20, Cleveland 19, Denver 44, Detroit 14, Duluth 12, Indianapolis 20, Omaha 20, St. Louis 26, St. Paul 18, Salt Lake City 46, New Orleans 38, Kansas City 26, Memphis 28, Pittsburgh 14.

### THIRTY PERSONS INJURED.

### Train Wrecked in Trying to Buck a Snow Drift.

Freehold, N. J., Jan. 27.—Thirty persons were injured, one fatally, when a train which was sent out to open the snow-bound Mattewan and Freehold division of the Central Railway of New Jersey was wrecked Thursday at East Freehold. The train was made up of two heavy engines, a passenger car and a coal car. The front engine, in bucking a ten-foot drift in a cut left the track and, pushed by the second engine, was thrown far up on the snow at the side. The passenger car caught fire from the stove and was destroyed, together with twenty bags of mail.

### MARINE LOSS VERY HEAVY.

### Thirteen Vessels Ashore Along the New England Coast.

Boston, Jan. 27.—New England was engaged Thursday in shaking itself free from the grasp of Wednesday's blizzard and reckoning the damage caused by the severest storm in six years.

On the land the loss was comparatively small, being confined practically to the transportation companies, but along the coast the list of marine accidents showed one steamer, eleven schooners and a small sloop ashore between Block Island, R. I. and Eastport, Me.

### THREE DIED IN BLIZZARD.

### Storm at Baltimore Results in Loss of Life.

Baltimore, Jan. 27.—Three persons lost their lives in the blizzard which prevailed in this city on Wednesday. They were: Frank Zapp, found dead in a snowdrift; Patrolman Matthew Boone, found by his rounds sergeant lying unconscious, who died from heart failure, superinduced by the intense cold; Henry Schoenholz, a Baltimore and Ohio brakeman who missed his footing as he attempted to board his freight train and was run over and killed.

### SEVEN PERSONS INJURED.

### Street Car Crashes Into a Bus at St. Paul.

St. Paul, Jan. 27.—Seven persons were injured and a score more badly shaken up and bruised as the result of a collision between a four-horse bus containing nearly fifty persons and a Mississippi street car at Mississippi and Thirteenth streets at 9 o'clock Thursday night. The bus was struck by the car while crossing the tracks. The following are the badly injured:

Mary Johnson, Lilly Olson, Anna Wheeler, Margaret Wheeler, Anna Elsie, Paul Miske and Ed Fischer.

### FORTY PERSONS INJURED.

Fifteen Residences Damaged by a Dynamite Explosion.

Pittsburg, Jan. 27.—An explosion of dynamite Thursday at the Shoenberger plant of the American Steel and Wire company brought painful injuries to forty persons, temporarily disabled fifteen residences and broke at least 2,500 windows. In a shed near the plant the company had 300 pounds of dynamite stored to be used as required in the breaking up of the large ore piles. A few moments before the explosion, an Italian, who is supposed to be Vincenzo Pessimato, was seen to enter the shed. The only remnants found of him were portions of his trousers, vest and shirt, hanging to telegraph wires in the vicinity.

Of the forty injured people the majority were in their homes and were cut by broken window panes or by flying pieces of the shed.

### EIGHTEEN KILLED BY INDIANS.

Victims of Yaquis All Mexicans Excepting Four Americans.

Nogales, Ariz., Jan. 27.—William O'Daly, a prominent mining man, reports the situation in the Yaqui country as grave. He says that eighteen persons have been killed by the Indians during the past week, all Mexicans, except the four Americans murdered last Thursday near Cobachi. Robert C. Brown of Washington, D. C., partner of Former Senator Thurston, and William Sautry of Stillwater, Minn., left Minas Prietas Wednesday night with a large escort for the mines of the Yaqui Copper company, located ninety miles east of Minas Prietas.

It is stated here that General Torres is preparing a vigorous campaign of extermination against the Yaquis.

### TO PREVENT A LYNCHING.

### Accused Man and Woman Put in Jail at Kansas City.

Kansas City, Jan. 27.—Mrs. Ida Perdue, aged twenty-eight, and Hannibal Connors, aged thirty, her half brother, charged with the murder of the woman's husband, Dr. Emmett P. Perdue, at her home at Richmond, Mo., have been brought here and placed in the county jail for safe keeping, the sheriff of Richmond fearing that an attempt might be made to lynch them. Dr. Perdue was shot and killed while in bed. Mrs. Perdue says he committed suicide.

### Firemen Had a Hard Battle.

New York, Jan. 27.—Fire which started in wooden buildings in South street, near the East river water front Thursday gave the firemen a desperate two-hour battle and threatened to destroy a large amount of property. The flames were finally subdued after four buildings had been badly damaged, resulting in a loss of \$100,000.

### TELEGRAPHIC BREVITIES.

The midwinter meeting of the South Dakota Press association is being held at Huron.

Miss Eugenie Uhlrich, a well-known Catholic writer and editor, is dead at Limoges, France.

Sir Francis Packenham, a member of the British diplomatic corps, died at the home of a relative in San Francisco Thursday.

The illness of Cardinal Satolli has taken a serious turn and it is feared pneumonia will ensue. The cardinal's temperature is 103.

Nesrin Hanoom, mother of Chekib Bey, minister of Turkey in this country, is dead at the Turkish legation in Washington, aged sixty-five years.

The body of Emil Johnson, a dairyman, was found frozen in the ice of Minnehaha creek, about a mile below Hopkins, Minn., Thursday. It is thought he became lost and succumbed to the cold.

Poultry—Turkeys, 13c; chickens, 11c; springs, 10c.

## HUGO WILL PRESIDE

### ELECTED SPEAKER PRO TEM TO OFFICIATE DURING ILLNESS OF SPEAKER CLAGUE.

### SENATE FINALLY CONFIRMS APPOINTMENT OF J. E. KING AS STATE LIBRARIAN.

St. Paul, Jan. 27.—N. F. Hugo of Duluth was Thursday elected speaker pro tem of the house. The action was made necessary by the continued absence of Speaker Frank Clague, who is at his rooms in the Merchants hotel, threatened with pneumonia.

The first of several immigration measures to come was introduced by A. L. Cole of Walker, an act authorizing the creation of a state board of immigration.

Mr. Cole, in aid of immigration, provides a board of five members, three of them to be the governor, attorney general and state auditor. The board is to select a superintendent, to be known as the commissioner of immigration, and he is to be aided by secretaries and clerks. For the carrying out of the provisions of the act and the maintenance of the bureau, an appropriation of \$25,000, to be available in 1906, and another one of \$25,000, to be available in 1907, are specified.

The first insurance bills of the session, three in all, made "their appearance. One is by Mr. Armstrong, Minneapolis, and allows companies patterned after the Lloyds to transact insurance business known as sprinkler leakage. The second, by S. O. Morse, Slayton, allows the organization of mutual companies for the payment of losses incurred by the destruction of grain and grain buildings and machinery. The third by Representative Roberts, Minneapolis, makes the minimum capital stock for plate glass insurance companies \$100,000, inland marine companies, \$100,000, except bicycle insurance companies, \$25,000.

M. D. Flower, St. Paul, would abolish the payment of the state bounty, paid since 1873, for the cultivating and planting of trees on prairie land. The annual expenditure is \$20,000 and Mr. Flower's bill repeals the law in its entirety.

Agitation for the establishment of a state girl's training school is begun in a bill introduced by J. A. Anderegg of Le Sueur. The tract of land for which must not be less than eighty acres in extent, must be assessable to the Twin Cities and a sum of \$100,000 is appropriated for the building after the land is obtained.

A petition was received from the Mankato board of trade asking for the placing of all telegraph and telephone companies under the supervision of the railroad and warehouse commission. The complaint was that the present system engenders charges out of proportion to the service given, and an inability to obtain connections where independent and trust companies are in competition.

Mr. Hannaford's resolution calling for a committee of seven to investigate alleged abuses in the weighing and inspection of grain was passed under a suspension of the rules.

### CONFIRMS THE APPOINTMENT.

### Senate Finally Approves Mr. King as State Librarian.

The senate Thursday confirmed the appointment of John E. King of Red Lake Falls for state librarian. It was done very grudgingly on a viva voce vote, and many senators signified their dissent.

Senator Laybourn, who occupied the chair in the absence of President Jones, decided in favor of the ayes, and the incident closed.

The author of the opposition, Senator Hawkins, said that his objection to Mr. King was because of unjust criticisms made by him against a public official, Lieutenant Governor Ray Jones of Minneapolis, but Mr. Hawkins said that at the request of Mr. Jones he withdrew his opposition and the nomination was confirmed.

An important bill relating to the office of insurance commissioner, was introduced by Senator Cole. All fees are to be turned into the state treasury, and the salaries of the commissioner, his assistants and help of the office are raised. The salaries are:

Commissioner, \$5,000; deputy commissioner, \$2,000; actuary, \$2,000 (new office); chief clerk, \$1,500; bookkeeper and cashier, \$1,200 (new office); stenographer, \$900; two clerks, \$800 each.

The actuary shall make the valuations of the policies of foreign companies doing business in this state and perform such other duties as the commissioner shall prescribe. All fees for the valuing of policies shall be collected and turned into the state treasury. The actual expenses of the commission or other insurance officer of the department in making such examination or visitation shall be paid to the person or persons making such examinations or visitation.

Senator Jepson introduced a bill amending the act establishing a live stock sanitary board. Under the bill, when it is decided that an animal should be killed, a board of three veterinarians shall make a post mortem examination. If the animal is found to be healthy then the board will pay the owner the full value of such animal. If the animal is found to be diseased, the board pays the owner three-fourths the difference between the appraised and the market value.

### A HERO AT PANLUNG FORTS.

Japanese Officer's Bravery Displayed at Port Arthur's Siege.

On deeds of personal bravery volumes could be written, writes a correspondent of the London Mail who was with the Japanese troops before Port Arthur. I will just jot down one incident during the Japanese attack on the Panlung forts at Port Arthur.

A young officer heroically saved that day. When his comrades turned and ran back he refused to follow. With the handful of men who stood at his side he climbed the breastwork and planted a small Japanese flag on the parapet. We could see him calling on his men to rally as he pointed out the ensign of his country.

They heard his appeal, stopped in their flight and turned back again. For the second time they came running up the hill under the murderous fire, and this time nothing could stop them.

Scores of them fell, but the others, fired by the heroism of their leader, pushed on, cleared the glacis at a run, swarmed over the breastworks up to the parapet, where their flag, waving over the corpse of their brave leader, urged them to greater deeds. Other troops took up the cry and stormed their way forward. We could see them silhouetted on the top of the walls; then they disappeared into the interior of the fort.

They met heroism with stolid courage and bravery. For more than six long hours both sides engaged with rifles and bayonets, hand grenades and machine guns, stones and swords and clubbed rifles in the fiercest and wildest struggle at close quarters. First they were in and out among the bomb proofs and the trenches, then they were sheltered behind sand bags; sometimes out in the open, now playing at hide and seek, a game which invariably ended in the most furious hand to hand conflict.

First the Japanese would gain ground and occupy the biggest part of the fort; then the Russians would assume the upper hand and drive their enemies to the wall. The hardest fighting took place around the flag. Fifteen times the Russians uprooted it, and every time a gallant little Jap fought his way to the spot and replanted it. He was shot down for his bravery.

### INDUSTRIOUS VIRGINIA HENS

One County of State Alone Shipped 10,800,000 Eggs Last Year.

The western part of Virginia has been known for years as a great section for raising poultry, and the industry is increasing at a rapid rate, says a Richmond special dispatch to the Chicago Inter Ocean. The shipment of Thanksgiving turkeys and chickens for all seasons brings in a considerable revenue. The Harrisonburg News recently compiled the figures of the egg production of Rockingham county for the past year. It finds that 30,000 crates were shipped to market, a total of 10,800,000 eggs sold from one county in a single year. This does not include many thousands consumed on the farms where they are laid.

The lowest price of the year was 14 to 15 cents a dozen, and in December 32 cents was paid. The average for the past year was 22 cents. The profit from eggs alone to Rockingham county farmers was nearly \$200,000. Virginia is able to put aside a very creditable "nest egg" from the profit of a year's work of her industrious hens.

### OCEAN HIS LIFE SAVER.

Wealthy Englishman Has Crossed the Atlantic Seventy-nine Times.

A new method of keeping alive when doctors have given up hope was learned the other day when the Arabic reached New York. Continuous travel across the Atlantic is the plan, and John Sharmon of Halifax, Yorkshire, England, is the man who is practicing it, says the New York Tribune.

Mr. Sharmon, when he arrived at New York, had finished his seventy-ninth transatlantic trip and sailed the next day on the Umbria for Liverpool. He is wealthy and believes that the long sea voyages are the only means of prolonging his life.

Mr. Sharmon has a record for making close connections and was worried when the Arabic was delayed, fearing that he would have to remain in the city through missing the Umbria. At one time he arrived on the Oceanic and sailed ten minutes later on the return trip of the Majestic.

### Monkeys as Prune Crop Pickers.

A proposition to train monkeys to pick the prune crop has been advanced by Martin V. Seeley, an orchardist of San Jose, Cal., says the Chicago Record-Herald. He conceived the idea of training the animals to do such work while a resident of Central America. Seeley says he has made arrangements with A. B. Jones of Acapulco, Panama, for 500 native tame monkeys, and this shipment is now on its way. Getting help to pick the prunes off the ground has been a perplexing problem because of a scarcity of labor. Seeley says he will have no trouble in training the animals to pick up the fruit and will muzzle them to prevent them from eating it.

### Railroad's Plan to Test Tracks.

A "daredevil train," consisting of the heaviest engine and coaches on the road, is being sent over the Burlington system to test the tracks and bridges, says an Omaha dispatch. The crew is instructed to turn the wheels as fast as steam power will admit in order to find any weak spots where strain of heavy fast trains might cause wreck. Employees of the road, while admitting the effectiveness of the method, declare it appears to them unnecessary recklessness. It is the declared intention of the Burlington management to send the test train over all divisions of the system.

## WHOLE FAMILY SLAIN

BRUTAL MURDERS IN FLORIDA  
SUPPOSED TO HAVE BEEN  
DONE BY NEGROES.

### SIX PERSONS WERE KILLED

HUSBAND AND WIFE AND THEIR  
FOUR CHILDREN ALL FOUND  
IN RUINED HOME.

Tampa, Fla., Jan. 27.—The little farming community of Wauchula, in Polk county, was plunged into excitement Thursday morning at the discovery of a crime equalling in horror the tragedy at Statesboro, Ga., last year. The home of John Kirby, a farmer, who moved there last October from Blount county, Ala., was found in ashes and in the smouldering ruins were found the bodies of Kirby, his wife and four children, ranging in age from a boy of twelve to an infant of one year.

The whole neighborhood soon reached the scene and an investigation was made which resulted in the conclusion that the entire family had been murdered and a torch applied to the dwelling. The skulls of each of the victims, except that of Mrs. Kirby, had been crushed in by some heavy weapon, and each with the exception of the woman had evidently been murdered as they slept. A hammer was the only weapon found in the ruins which could have inflicted the wounds. A coroner's jury was empaneled and after making an examination of the premises rendered a verdict that the family came to death "by fire or some other means unknown."

The general theory is that a party of negroes committed the crime, although no traces of the perpetrators can be found.

### TEMPERATURES MODERATE.

Cold Spell Over the West and Northwest is Ended.

Chicago, Jan. 27.—Temperatures have generally moderated throughout the West and Northwest, not a single city reporting a temperature as low as zero. Up in the British Northwest, the mercury ranged from 6 to 12 above. The temperature Thursday night in the leading cities of the West was as follows:

Chicago 18, Cincinnati 20, Cleveland 19, Denver 44, Detroit 14, Duluth 12, Indianapolis 18, Omaha 20, St. Louis 26, St. Paul 18, Salt Lake City 46, New Orleans 38, Kansas City 26, Memphis 28, Pittsburgh 14.

### THIRTY PERSONS INJURED.

Train Wrecked in Trying to Buck a Snow Drift.

Freehold, N. J., Jan. 27.—Thirty persons were injured, one fatally, when a train which was sent out to open the snow-bound Mattewan and Freehold division of the Central Railway of New Jersey was wrecked Thursday at East Freehold. The train was made up of two heavy engines, a passenger car and a coal car. The front engine, in bucking a ten-foot drift in a cut left the track and, pushed by the second engine, was thrown far up on the snow at the side. The passenger car caught fire from the stove and was destroyed, together with twenty bags of mail.

### MARINE LOSS VERY HEAVY.

Thirteen Vessels Ashore Along the New England Coast.

Boston, Jan. 27.—New England was engaged Thursday in shaking itself free from the grasp of Wednesday's blizzard and reckoning the damage caused by the severest storm in six years.

On the land the loss was comparatively small, being confined practically to the transportation companies, but along the coast the list of marine accidents showed one steamer, eleven schooners and a small sloop ashore between Block Island, R. I., and Eastport, Me.

### THREE DIED IN BLIZZARD.

Storm at Baltimore Results in Loss of Life.

Baltimore, Jan. 27.—Three persons lost their lives in the blizzard which prevailed in this city on Wednesday. They were: Frank Zapp, found dead in a snowdrift; Patrolman Matthew Boone, found by his rounds sergeant lying unconscious, who died from heart failure, superinduced by the intense cold; Henry Schoenholz, a Baltimore and Ohio brakeman who missed his footing as he attempted to board his freight train and was run over and killed.

### SEVEN PERSONS INJURED.

Street Car Crashes into a Bus at St. Paul.

St. Paul, Jan. 27.—Seven persons were injured and a score more badly shaken up and bruised as the result of a collision between a four-horse bus containing nearly fifty persons and a Mississippi street car at Mississippi and Thirteenth streets at 9 o'clock Thursday night. The bus was struck by the car while crossing the tracks. The following are the badly injured: Mary Johnson, Lilly Olson, Anna Wheeler, Margaret Wheeler, Anna Elster, Paul Miska and Ed Fischer.

### FORTY PERSONS INJURED.

Fifteen Residences Damaged by a Dynamite Explosion.

Pittsburg, Jan. 27.—An explosion of dynamite Thursday at the Shoenberger plant of the American Steel and Wire company brought painful injuries to forty persons, temporarily disabled fifteen residences and broke at least 2,500 windows. In a shed near the plant the company had 300 pounds of dynamite stored to be used as required in the breaking up of the large ore piles. A few moments before the explosion, an Italian, who is supposed to be Vincenzo Pessimato, was seen to enter the shed. The only remnants found of him were portions of his trousers, vest and shirt, hanging to telegraph wires in the vicinity. Of the forty injured people the majority were in their homes and were cut by broken window panes or by flying pieces of the shed.

### EIGHTEEN KILLED BY INDIANS.

Victims of Yaquis All Mexicans Excepting Four Americans.

Nogales, Ariz., Jan. 27.—William O'Daly, a prominent mining man, reports the situation in the Yaqui country as grave. He says that eighteen persons have been killed by the Indians during the past week, all Mexicans, except the four Americans murdered last Thursday near Cobachi. Robert C. Brown of Washington, D. C., partner of Former Senator Thurston, and William Saunty of Stillwater, Minn., left Minas Prietas Wednesday night with a large escort for the mines of the Yaqui Copper company, located ninety miles east of Minas Prietas. It is stated here that General Torres is preparing a vigorous campaign of extermination against the Yaquis.

### TO PREVENT A LYNCHING.

Accused Man and Woman Put in Jail at Kansas City.

Kansas City, Jan. 27.—Mrs. Ida Perdue, aged twenty-eight, and Hannah Connors, aged thirty, her half brother, charged with the murder of the woman's husband, Dr. Emmett P. Perdue, at her home at Richmond, Mo., have been brought here and placed in the county jail for safe keeping, the sheriff of Richmond fearing that an attempt might be made to lynch them. Dr. Perdue was shot and killed while in bed. Mrs. Perdue says he committed suicide.

### Firemen Had a Hard Battle.

New York, Jan. 27.—Fire which started in wooden buildings in South street, near the East river water front Thursday gave the firemen a desperate two-hour battle and threatened to destroy a large amount of property. The flames were finally subdued after four buildings had been badly damaged, resulting in a loss of \$100,000.

### TELEGRAPHIC BRIEVITIES.

The midwinter meeting of the South Dakota Press association is being held at Huron.

Miss Eugenie Uhlrich, a well-known Catholic writer and editor, is dead at Limoges, France.

Sir Francis Packenham, a member of the British diplomatic corps, died at the home of a relative in San Francisco Thursday.

The illness of Cardinal Satolli has taken a serious turn and it is feared pneumonia will ensue. The cardinal's temperature is 103.

Nesrin Hanoun, mother of Chekib Bey, minister of Turkey in this country, is dead at the Turkish legation in Washington, aged sixty-five years.

The body of Emil Johnson, a dairyman, was found frozen in the ice of Minnehaha creek, about a mile below Hopkins, Minn., Thursday. It is thought he became lost and succumbed to the cold.

### MARKET QUOTATIONS.

#### Minneapolis Wheat.

## HUGO WILL PRESIDE

ELECTED SPEAKER PRO TEM TO  
OFFICIATE DURING ILLNESS  
OF SPEAKER CLAGUE.

SENATE FINALLY CONFIRMS AP-  
POINTMENT OF J. E. KING AS  
STATE LIBRARIAN.

St. Paul, Jan. 27.—N. F. Hugo of Duluth was Thursday elected speaker pro tem of the house. The action was made necessary by the continued absence of Speaker Frank Clague, who is at his rooms in the Merchants hotel, threatened with pneumonia.

The first of several immigration measures to come was introduced by A. L. Cole of Walker, an act authorizing the creation of a state board of immigration.

Mr. Cole, in aid of immigration, provides a board of five members, three of them to be the governor, attorney general and state auditor. The board is to select a superintendent, to be known as the commissioner of immigration, and he is to be aided by secretaries and clerks. For the carrying out of the provisions of the act and the maintenance of the bureau, an appropriation of \$25,000, to be available in 1906, and another one of \$25,000, to be available in 1907, are specified.

The first insurance bills of the session, three in all, made their appearance. One is by Mr. Armstrong, Minneapolis, and allows companies patterned after the Lloyds to transact insurance business known as sprinkler leakage. The second, by S. O. Morse, Slayton, allows the organization of mutual companies for the payment of losses incurred by the destruction of grain and grain buildings and machinery. The third by Representative Roberts, Minneapolis, makes the minimum capital stock for plate glass insurance companies \$100,000, inland marine companies, \$100,000, except bicycle insurance companies, \$25,000.

M. D. Flower, St. Paul, would abolish the payment of the state bounty, paid since 1873, for the cultivating and planting of trees on prairie land. The annual expenditure is \$20,000 and Mr. Flower's bill repeals the law in its entirety.

Agitation for the establishment of a state girls' training school is begun in a bill introduced by J. A. Anderegg of Le Sueur. The tract of land for which must not be less than eighty acres in extent, must be assessable to the Twin Cities and a sum of \$100,000 is appropriated for the building after the land is obtained.

A petition was received from the Mankato board of trade asking for the placing of all telegraph and telephone companies under the supervision of the railroad and warehouse commission. The complaint was that the present system engenders charges out of proportion to the service given, and an inability to obtain connections where independent and trust companies are in competition.

Mr. Hannaford's resolution calling for a committee of seven to investigate alleged abuses in the weighing and inspection of grain was passed under a suspension of the rules.

### CONFIRMS THE APPOINTMENT.

Senate Finally Approves Mr. King as State Librarian.

The senate Thursday confirmed the appointment of John E. King of Red Lake Falls for state librarian. It was done very grudgingly on a viva voce vote, and many senators signified their dissent.

Senator Laybourn, who occupied the chair in the absence of President Jones, decided in favor of the ayes, and the incident closed.

The author of the opposition, Senator Hawkins, said that his objection to Mr. King was because of unjust criticisms made by him against a public official, Lieutenant Governor Ray Jones of Minneapolis, but Mr. Hawkins said that at the request of Mr. Jones he withdrew his opposition and the nomination was confirmed.

An important bill relating to the office of insurance commissioner, was introduced by Senator Cole. All fees are to be turned into the state treasury, and the salaries of the commissioner, his assistants and help of the office are raised. The salaries are: Commissioner, \$5,000; deputy commissioner, \$2,000; actuary, \$2,000 (new office); chief clerk, \$1,500; bookkeeper and cashier, \$1,200 (new office); stenographer, \$900; two clerks, \$800 each.

The actuary shall make the valuations of the policies of foreign companies doing business in this state and perform such other duties as the commissioner shall prescribe. All fees for the valuing of policies shall be collected and turned into the state treasury. The actual expenses of the commission or other insurance officer of the department in making such examination or visitation shall be paid to the person or persons making such examinations or visitation.

Senator Jepson introduced a bill amending the act establishing a live stock sanitary board. Under the bill, when it is decided that an animal should be killed, a board of three veterinarians shall make a post mortem examination. If the animal is found to be healthy then the board will pay the owner the full value of such animal. If the animal is found to be diseased, the board pays the owner three-fourths the difference between the appraised and the market value.

## A HERO AT PANLUNG FORTS.

Japanese Officer's Bravery Displayed at Port Arthur's Siege.

On deeds of personal bravery volumes could be written, writes a correspondent of the London Mail who was with the Japanese troops before Port Arthur. I will just jot down one incident during the Japanese attack on the Panlung forts at Port Arthur.

A young officer heroically saved that day. When his comrades turned and ran back he refused to follow. With the handful of men who stood at his side he climbed the breastwork and planted a small Japanese flag on the parapet. We could see him calling on his men to rally as he pointed out the ensign of his country.

They heard his appeal, stopped in their flight and turned back again. For the second time they came running up the hill under the murderous fire, and this time nothing could stop them.

Scores of them fell, but the others, fired by the heroism of their leader, pushed on, cleared the glacis at a run, swarmed over the breastworks up to the parapet, where their flag, waving over the corpse of their brave leader, urged them to greater deeds. Other troops took up the cry and stormed their way forward. We could see them silhouetted on the top of the walls; then they disappeared into the interior of the fort.

They met heroism with stolid courage and bravery. For more than six long hours both sides engaged with rifles and bayonets, hand grenades and machine guns, stones and swords and clubbed rifles in the fiercest and wildest struggle at close quarters. First they were in and out among the bomb proofs and the trenches, then they were sheltered behind sand bags; sometimes out in the open, now playing at hide and seek, a game which invariably ended in the most furious hand to hand conflict.

First the Japanese would gain ground and occupy the biggest part of the fort; then the Russians would assume the upper hand and drive their enemies to the wall. The hardest fighting took place around the flag. Fifteen times the Russians uprooted it, and every time a gallant little Jap fought his way to the spot and replanted it. He was shot down for his bravery.

### INDUSTRIOUS VIRGINIA HENS

One County of State Alone Shipped 10,800,000 Eggs Last Year.

The western part of Virginia has been known for years as a great section for raising poultry, and the industry is increasing at a rapid rate, says a Richmond special dispatch to the Chicago Inter Ocean. The shipment of Thanksgiving turkeys and chickens for all seasons brings in a considerable revenue. The Harrisonburg News recently compiled the figures of the egg production of Rockingham county for the past year. It finds that 30,000 crates were shipped to market, a total of 10,800,000 eggs sold from one county in a single year. This does not include many thousands consumed on the farms where they are laid.

The lowest price of the year was 14 to 15 cents a dozen, and in December 32 cents was paid. The average for the past year was 22 cents. The profit from eggs alone to Rockingham county farmers was nearly \$200,000. Virginia is able to put aside a very creditable "nest egg" from the profit of a year's work of her industrious hens.

### OCEAN HIS LIFE SAVER.

Wealthy Englishman Has Crossed the Atlantic Seventy-nine Times.

A new method of keeping alive when doctors have given up hope was learned the other day when the Arabic reached New York. Continuous travel across the Atlantic is the plan, and John Sharmon of Halifax, Yorkshire, England, is the man who is practicing it, says the New York Tribune.

Mr. Sharmon, when he arrived at New York, had finished his seventy-ninth transatlantic trip and sailed the next day on the Umbria for Liverpool. He is wealthy and believes that the long sea voyages are the only means of prolonging his life.

Mr. Sharmon has a record for making close connections and was worried when the Arabic was delayed, fearing that he would have to remain in the city through missing the Umbria. At one time he arrived on the Oceanic and sailed ten minutes later on the return trip of the Majestic.

### Monkeys as Prune Crop Pickers.

A proposition to train monkeys to pick the prune crop has been advanced by Martin V. Seeley, an orchardist of San Jose, Cal., says the Chicago Record-Herald. He conceived the idea of training the animals to do such work while a resident of Central America. Seeley says he has made arrangements with A. B. Jones of Acapulco, Panama, for 500 native tame monkeys, and this shipment is now on its way. Getting help to pick the prunes off the ground has been a perplexing problem because of a scarcity of labor. Seeley says he will have no trouble in training the animals to pick up the fruit and will muzzle them to prevent them from eating it.

### Railroad's Plan to Test Tracks.

A "daredevil train," consisting of the heaviest engine and coaches on the road, is being sent over the Burlington system to test the tracks and bridges, says an Omaha dispatch. The crew is instructed to turn the wheels as fast as steam power will admit in order to find any weak spots where strain of heavy fast trains might cause wreck. Employees of the road, while admitting the effectiveness of the method, declare it appears to them unnecessary recklessness. It is the declared intention of the Burlington management to send the test train over all divisions of the system.
